Achievement Awards

PCC

The Public Pension Coordinating Council recently recognized PERA for meeting administration standards for public retirement systems.

GFOA

The Government Finance Officers Association (GFOA) recognizes public retirement systems that meet its rigorous reporting standards with its annual Certificate of Achievement for Excellence in Financial Reporting. It is the highest form of recognition for accounting and financial reporting in the public pension sector. PERA received this award for our 2011 Comprehensive Annual Financial Report, the 27th time we have been so honored.

President's Report

Public Employees Retirement Association of Minnesota

December 28, 2012

Dear Members, Annuitants, Beneficiaries and Governmental Employers:

This 81st annual financial report of the Public Employees Retirement Association (PERA) discloses financial, actuarial, and other related information about PERA and the funds it administers. On June 30, 2012, PERA's net assets available for benefits at fair value exceeded \$20.5 billion, an increase of \$378 million from a year ago.

Fiscal year 2012 was another busy year for PERA. On December 30, 2011 the Minneapolis Police Relief Association and the Minneapolis Fire Relief Association were merged into PERA's Police & Fire Plan. While just 26 active members were included in that group, over 1,300 benefit recipients were added to the Police & Fire Plan. On June 29, 2012 the Virginia Fire Relief Association and Fairmont Police Relief Association were also merged into PERA's Police & Fire Plan. Each group had 13 benefit recipients. The Minneapolis and Virginia plans were underfunded, so those cities will make future amortization payments to the Police & Fire Plan to pay off their unfunded liabilities.

PERA's Statewide Volunteer Firefighter Retirement Plan is in its third year of existence. In 2012 it doubled in size by adding 17 new fire departments and 382 firefighters. The plan now has almost \$7 million in assets and 750 members from 35 fire departments. Interest in the statewide plan continues to grow as word spreads about the new plan.

The total rate of return for PERA's investment assets was 2.4 percent, net of fees, for the 12 months ended June 30, 2012. For the past 10 years, PERA's investments exceeded the composite market return benchmark with an annualized return of 7.0 percent. Over the past 20 years, PERA's investments have returned 8.2% net of fees, 5.7 percentage points above CPI, despite two significant recessions during that period.

While three of our four large defined benefit plans are in pretty good shape (thanks to legislative changes made in 2010), contribution rates in PERA's Police & Fire Plan are eight percent deficient to get that plan fully funded by the year 2038. In 2012 we

Don Rambow
Board President

began working with Police & Fire representatives to develop a list of recommended changes in order to shore up that plan, and expect to have legislation ready for the 2013 legislative session.

As always, our commitment as trustees of the association is the preservation and safety of the assets of PERA's funds, and the protection and furtherance of the interests of our members, annuitants, and beneficiaries. I believe our efforts over the past year have amply illustrated this continuing dedication as fiduciaries of the public employee retirement funds.

Don Rambow
President
PERA Board of Trustees

December 27, 2012

Board of Trustees
Public Employees Retirement Association of Minnesota
60 Empire Drive, Suite 200
St. Paul, Minnesota 55103

Dear Trustee:

We are pleased to present this Comprehensive Annual Financial Report of the Public Employees Retirement Association (PERA) for the fiscal year ended June 30, 2012—our 81st year of operation. The information contained in this report is accurate in all material respects and is intended to present fairly the financial status and results of operations of the association.

Responsibility for the contents of this report, including the financial statements, rests solely with the management of the association. This transmittal letter is designed to complement Management's Discussion and Analysis (MD&A) and should be read in conjunction with it. The MD&A begins on page 18 in the Financial Section of this report.

PLAN OVERVIEW

PERA was established in 1931 by the Minnesota legislature. For financial reporting purposes, PERA is considered a pension trust fund of the State of Minnesota. The State reports our assets in the State's annual report as pension trust fund assets. The Plan is funded on an actuarial reserve basis, with money being set aside for benefits while the benefits are being earned and before they are paid.

PERA serves over 2,000 separate local governmental entities. These participating employers include cities, counties, townships, and school districts located throughout the State. On June 30, 2012, PERA's membership included 153,735 current, active employees and 89,603 benefit recipients in the four multi-employer defined benefit plans, and another 7,435 members with money in the defined contribution plan. The four defined benefit plans include the General Employees Retirement Fund (GERF), the Public Employees Police and Fire Fund (PEPFF), the Public Employees Correctional Fund (PECF), and the Minneapolis Employees Retirement Fund (MERF).

ACCOUNTING SYSTEMS AND REPORTS

Financial statements are prepared in conformity with accounting principles generally accepted in the United States of America and reporting guidelines set forth by the

Letter of Transmittal

(Continued)

Governmental Accounting Standards Board (GASB). PERA's Comprehensive Annual Financial Report also complies with Minnesota Statutes, Section 356.20. Transactions are reported on the accrual basis of accounting. Contributions from employers and members are recognized as revenue when earned and measurable. Expenses are recorded when corresponding liabilities are incurred, regardless of when payment is made.

PERA's management team is responsible for establishing and maintaining a system of internal controls. Internal controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss or unauthorized disposition and the reliability of the financial records from which the financial reports are prepared. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgment by management. Our independent auditors have audited the accompanying financial statements and reviewed our internal control structure. They reported no material weaknesses in our internal controls. Management believes that an adequate system of internal control is in place and that the accompanying statements, schedules and tables are fairly presented.

INVESTMENTS

In accordance with Minnesota Statutes, Section 353.06, assets of the PERA Funds are invested by the Minnesota State Board of Investment (SBI). All investments undertaken by the SBI are governed by the common law prudent person rule and other standards codified in Chapter 11A of the Minnesota Statutes. The board is comprised of the state's elected officers: Governor Mark Dayton; State Auditor Rebecca Otto; Secretary of State Mark Ritchie; and State Attorney General Lori Swanson.

The SBI appoints a 17-member Investment Advisory Council (IAC) to advise the State Board on asset allocation and other policy matters relating to investments. The IAC also advises the SBI on methods to improve

the rate of return while assuring adequate security of the assets under management. The executive director of PERA is a standing member of the IAC.

The IAC has decided to eliminate its previous committee structure and has restructured its process for evaluating asset allocation, stock and bond managers, and alternative investments. All proposed investment policies recommended to the Board are reviewed and discussed in detail by the full council before they are presented to the board for action.

The SBI also employs investment consultants to monitor and evaluate investment management firms' performance and to evaluate or suggest various alternatives for asset allocation and other investment policy matters.

COMBINED FUNDS

Pension assets of the Association are managed externally by private money managers retained under contract with the SBI. These assets are pooled with the assets of other active members and benefit recipients of statewide retirement funds into the Combined Retirement Fund. The greatest share of these assets, approximately 60 percent, is invested in domestic and international common stocks in order to maximize the long-term rate of return. Including international stocks in the asset mix allows the SBI to diversify its holdings across world markets and offers the opportunity to enhance returns and reduce the risk/volatility of the total portfolio. For the year ended June 30, 2012, the Combined Retirement Fund produced a 2.4 percent rate of return.

The SBI has one overriding responsibility in the management of these funds: to ensure that sufficient funds are available to finance promised retirement benefits. Within this context, SBI has established a long-term investment objective: to outperform a composite market index weighted to reflect the long-term asset allocation policy over a ten-year period. Performance is measured net of all fees and costs to assure the SBI's focus is on true net return. The Combined Funds' ten-year annualized rate of return at June 30, 2012 was 7.0 percent, and its' twenty-year annualized rate of return was 8.2 percent.

ECONOMIC CONDITIONS AND OUTLOOK

Although the Great Recession officially ended in 2009, its effects continued to be felt across the world in fiscal year 2012 (FY12). Despite record low long-term interest rates, benign inflation, and an influx of money into the economy, the pace of recovery from the Great Recession has only been about one half of the average rate of growth in prior post-World War II recoveries.

World economies were contributing factors to a sluggish economy in the U.S. Unsustainable debt, especially in the Eurozone, brought about an economic crisis. Europe entered a second recession, interest rates soared, and countries like Greece, Spain and Portugal required huge bailout packages. Arab political uprisings caused an increase in oil prices, and China's economy remained in the doldrums.

In the United States, median household income fell 1.5 percent in calendar year 2011 to \$50,054, eight percent lower than 2007 (before the recession took hold). Although the unemployment rate fell from 9.2 percent at the end of FY11 to 8.2 percent at the end of FY12, the labor participation rate fell to 64.3 percent, the lowest rate in thirty years. The median length of unemployment fell slightly to 18.5 weeks. Consumer spending, which makes up more than seventy percent of GDP, has grown at a 1.9 percent annual rate since the recession, not enough to sustain a recovery from the longest and deepest recession in the post-war period. While about 150,000 jobs were added each month in FY12, sixty percent of those jobs were low-skill, low-wage jobs.

Persistent unemployment, elevated world-wide debt levels, high energy and food prices, and low consumer confidence took a toll on the markets. The Russell 3000 index rose just 3.8 percent in FY12, and the Morgan Stanley Capital International World Ex-U.S. index fell 14.1 percent.

Minnesota's economy was not immune from the financial crisis, but it has fared better than the nation as a whole since the start of the Great Recession. Manufacturing output fell 1 percent from 2007 through 2011 across the U.S., but rose 13 percent in Minnesota during that same period. Minnesota's unemployment rate fell from 6.7 percent in June 2011 to 5.6 percent in June 2012, well below the national average. 35,000 jobs were added during FY12. Over 82,000 jobs have been added in Minnesota since the end of the recession in September 2009. The labor force participation rate in Minnesota was 71.7 percent, third best in the U.S. Minnesota's median household income rose to \$57,820 in 2011, ninth best in the U.S. The housing market began to recover, largely due to historically low interest rates. Housing closings increased 14.6 percent over the previous year, and the median sale price of a home rose from \$157,500 in the summer of 2011 to \$179,950 in the summer of 2012.

Uncertainty about the "fiscal cliff" coupled with large budget deficits will likely continue to be a drag on the economy during fiscal year 2013, however. Slow but steady growth seems to be the new normal.

CURRENT FUNDING RATIOS

The primary funding objectives of the Association are:

- 1) to establish contribution rates which, when expressed as a percentage of active members' payroll, will remain level from generation to generation; and
- 2) to meet the required deadlines for full funding.

FUNDING RATIOS

(Percent Funded)

The chart above reflects funding ratios for four defined benefit funds administered by PERA.

Letter of Transmittal

(Continued)

An important measure of the health of a retirement system is the level of funding. The better the level of funding is, the larger the ratio of assets to accrued liabilities and the greater the level of investment income potential. Also, a better level of funding gives participants a higher degree of assurance that their pensions are secure. A pension plan is fully funded when it has present and projected assets sufficient to cover the liabilities for present and future annuities, benefits and refunds and the projected cost of fund administration.

The Association's progress toward meeting the full funding objective is displayed on the Schedule of Funding Progress on page 32. This report shows the funding levels using the entry age normal actuarial cost method, and reflects various changes in actuarial assumptions. At the end of fiscal year 2012, the ratio of assets to liabilities of the PERF was 73.5 percent. For the PEPFF and the PECTF, the ratios were 78.3 percent and 89.3 percent, respectively. The funded ratio of the MERF was 69.1 percent.

MAJOR INITIATIVES

PERA's staff worked on several large-scale projects during the year. Due to various efficiencies built in to our underlying systems over the past few years, we were able to keep up with an increasing work load while developing and implementing these new initiatives without needing to increase staff size.

Legislation was passed in 2011 that merged the Minneapolis Police Relief Association and Minneapolis Fire Relief Association into PERA's Police & Fire Fund effective December 30, 2011. The merger included 26 active members and 1,302 benefit recipients. Legislation was passed in 2012 that merged the Virginia Fire Relief Association and the Fairmont Police Relief Association into PERA's Police & Fire Fund effective June 29, 2012. Each of those associations had 13 benefit recipients, and neither had any active members.

In fiscal year 2012, seventeen fire departments joined the Statewide Volunteer Firefighter (SVF) Retirement Plan, which more than doubled the membership in that plan. The SVF was created in 2010, so is a very new plan with about 750 members from 35 different fire departments.

We worked closely with the other two statewide public pension plans, our actuaries and the State Board of Investment to develop legislation that would lower our assumed rate of return on investments from 8.5 percent to 8.0 percent for the next five years. During those five years we will monitor actual returns to determine if we should seek further legislation to keep the return assumption below 8.5 percent.

PERA's staff continued to work toward our vision of making pension information available to members 24 hours a day/7 days a week. In fiscal year 2012, we expanded the number of members who could create their own benefit estimates online. Over 100,000 members have now registered to use My PERA, our online tool. Members prepared over 105,000 benefit estimates themselves using My PERA in FY12.

We will continue to enhance our suite of on-line tools available to members and employers. Our focus is continuous improvement to our systems and services so that we can accommodate the needs of all stakeholders and constituencies of PERA.

PROFESSIONAL SERVICES

Actuarial consulting services during the fiscal year were provided by Mercer. The State's Attorney General continued to provide PERA with legal counsel. The State's Department of Health provided medical services used for determining disability benefits. The State Board of Investment continued to manage and invest the assets of PERA's funds, and the State's Legislative Auditor provided professional financial auditing services.

MEMBERSHIP REPORT

This report is complemented by an annual financial newsletter that discloses, in summary form, the contents of this report. This financial newsletter is mailed in January of each year to all PERA members, including active and deferred members and benefit recipients. In addition, this report is reproduced, in its entirety, on PERA's website, www.mnpera.org.

NATIONAL RECOGNITION

PERA has an outstanding staff and they are very dedicated to the utmost professionalism in administering the plans entrusted to the governance of the PERA Board of Trustees. In 2012 PERA received the Public Pension Coordinating Council's Public Pension Standards Award for Administration. This award is given in recognition of meeting professional standards that have been developed by three national organizations created to provide support and advocacy of the nation's public employee pension systems.

PERA also received national recognition as a leader in pension fund administration and disclosure of financial information. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to PERA for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2011. This is the 27th time PERA has received this honor.

The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for one year only. We believe our current report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGMENTS

As a compendium of financial, investment, actuarial and other statistical information, PERA's Comprehensive Annual Financial Report provides complete and reliable information on which management decisions may be based and through which compliance with statutory requirements may be assessed. In addition, the report serves as the primary source through which the effectiveness of the Trustees' management and administration of PERA and its funds may be judged.

We are sure you join with us in expressing gratitude and appreciation to the staff and PERA's advisors for their efforts in producing this report and for their loyal and dedicated service to the Association and its members, annuitants, beneficiaries, and participating local governmental employers.

Respectfully submitted,

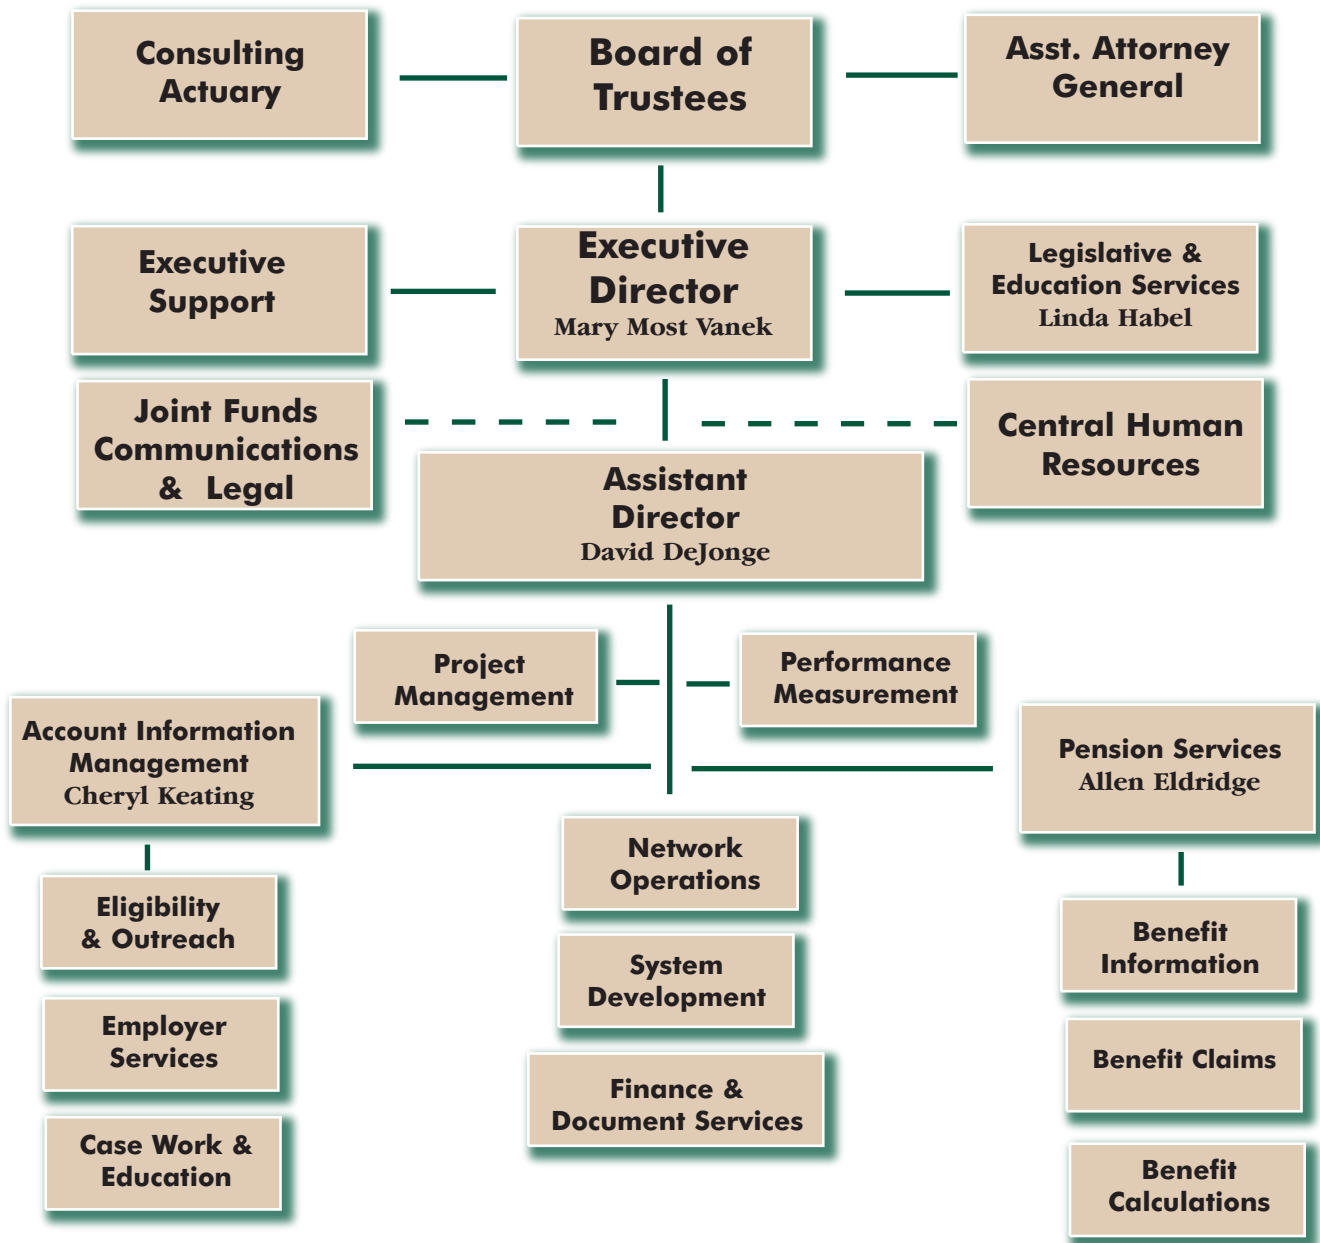

Mary Most Vanek
Executive Director

David DeJonge
Assistant Executive Director

Administrative Organization

MISSION STATEMENT

PERA's mission is to create opportunities for members to achieve a successful and secure retirement by providing the highest quality benefits and services, that members will value and trust.

PERA'S VISION:

PERA will provide on-demand access to reliable pension information and superior customer service.

State Auditor
525 Park Street, Suite 500
Saint Paul, Minnesota 55103

The PERA Board consists of 11 trustees as follows: The State Auditor is a trustee by virtue of office. The governor appoints five trustees to represent counties, cities, school boards, retired annuitants, and the general public. PERA active members elect five representatives—three general membership, one retiree/disabiltant, and one Police and Fire trustee—to serve four-year terms. PERA's elected Police and Fire trustee retired in May 2012 and had not been replaced prior to the end of the fiscal year.

Retirement System Plan Summary

Public Employees Retirement Association of Minnesota

Minnesota State Board of Investment on the management and investment of public pension funds and other assets.

MULTI-EMPLOYER PARTICIPATION

Approximately 2,100 separate units of government in Minnesota participate in the PERA-administered retirement system. These units include counties, cities, townships, and school districts*.

EMPLOYEE MEMBERSHIP

PERA has approximately 160,000 active members. With certain statutory exceptions, an employee performing personal services for a governmental employer whose salary is paid, in whole or in part, from revenues derived from taxation, fees, assessments, or other sources, is a member of PERA. Plan participation is dependent on the occupation of the member.

FUNDS

PERA administers six separate funds. Each has specific membership, contribution, benefit, and pension provisions.

The **General Employees Retirement Fund** encompasses two retirement plans — the PERA Coordinated Plan and the PERA Basic plan, as well as a separate division for the **Minneapolis Employees Retirement Fund** (MERF).

The Coordinated Plan, created in 1968, provides retirement and other benefits in addition to those supplied by Social Security. Established in 1931, the Basic Plan was PERA's original retirement plan and is not coordinated with the federal program.**

MERF was made part of the General Fund in June 2010. A traditional defined benefit plan, MERF is not coordinated with Social Security and was closed to new membership in 1979. It encompasses employees of the City of Minneapolis, non-teaching personnel at Minneapolis schools and some employees of the Minnesota State Colleges and Universities and the Metropolitan Airports Commission. Because its funding includes annual state subsidies and is required to remain self-sustaining, it is accounted for separately in this report.

PURPOSE

Established by the Minnesota Legislature in 1931, the Public Employees Retirement Association (PERA) of Minnesota administers pension funds that serve approximately 284,000 county, school and local public employees, benefit recipients, their survivors, and dependents.

Funds administered by the Association provide a variety of retirement pensions, and survivor and disability benefits. In the case of the Coordinated and Correctional plans, these benefits are in addition to those provided by Social Security.

PERA's Board of Trustees is responsible for administering these funds in accordance with statutes passed by the Minnesota Legislature and has a fiduciary obligation to PERA's members, their governmental employers, the state, and its taxpayers.

ADMINISTRATION

PERA's Board of Trustees is composed of 11 members. The State Auditor is a member by statute. Five trustees are appointed by the Governor. Serving four-year terms, these five trustees represent cities, counties, school boards, retired annuitants, and the general public, respectively.

The remaining five board members are elected by the PERA membership at large to serve four-year terms. Three trustees represent the general active membership, one represents Police and Fire Fund members, and one represents annuitants and benefit recipients. The latest trustee election was in January 2011.

The board appoints an executive director to serve as chief administrative officer of PERA. With approval of the board, the director develops the annual administrative budget, determines staffing requirements, contracts for actuarial and other services, and directs the day-to-day operations of the Association. The director also serves as a member of the State Investment Advisory Council, which advises the

NOTE:

- * A listing of employers participating in PERA can be found in the Statistical Section of this report.
- ** PERA's Basic Plan was closed to new membership in 1968 with the creation of the Coordinated Plan. At that time, Basic members had the option of remaining in that plan or transferring to the new Coordinated Plan. Today, fewer than 12 Basic members remain active public employees. Because of the small number in this sub-group of the General Fund, the remainder of the plan summary will only address the Coordinated Plan and the Minneapolis Employees Retirement Fund Division of the General Fund.

The **Public Employees Police and Fire Fund** was created in 1959 for police officers and firefighters not covered by a local relief association. It also encompasses all paid Minnesota police officers and firefighters hired since 1980.

The **Local Government Correctional Service Retirement Fund** was established in 1999 for correctional officers serving in county and regional adult and juvenile corrections facilities. Participants must be responsible for the security, custody and control of the facilities and their inmates.

Also administered by PERA is the **Public Employees Defined Contribution Plan (DCP)**. Created in 1987 to provide a retirement plan for personnel employed by public ambulance services, the plan has since been expanded to include physicians, city managers, and locally-elected public officials, except for county sheriffs.*

The **Statewide Volunteer Firefighter Retirement Plan (SVFRP)** was added to PERA's list of plans in January 2010. It is a lump-sum defined benefit plan open to any municipal volunteer fire department in the state. The municipality determines the level of benefits offered. Funding is provided through Minnesota State Fire Aid and, if required, additional municipal contributions. As of January 1, 2010, 36 volunteer fire departments have joined the plan.

CONTRIBUTIONS

The table below shows contribution rates for employees and employers under the various plans administered by PERA as of June 30, 2012. Rates are applied to total salary and are set by statute.

Fund	Employee Contribution	Employer Contribution
General Employees Retirement Fund		
Coordinated	6.25%	7.25%
MERF	9.75%	12.43%***
Public Employees Police & Fire Fund	9.60%	14.40%
Local Government Correctional Fund	5.83%	8.75%
Defined Contribution Plan	5.00%	5.00%***

CREDITED SERVICE AND SALARY

Members of PERA's defined benefit plans receive one service credit for each month for which they are paid. Individuals may earn a maximum of 12 service credits per year. Salary used in retirement and disability benefit calculations is the average monthly salary over an individual's highest-paid 60 consecutive months of public service, or all months of service if less than 60 (high-five salary).

Members hired prior to July 1, 2010 are vested for retirement benefits after 36 months of public service. The vesting requirement for individuals hired after June 30, 2010, is 60 months.

Members of the Statewide Volunteer Firefighters Retirement Plan are vested after five years of credited service, while all active members of MERF exceeded that plan's 10 year vesting requirement years ago.

Since the Defined Contribution Plan consists of individual accounts paying a lump-sum benefit, there are no vesting requirements for member or employer contributions and earnings.

RETIREMENT BENEFITS Eligibility and Annuity Formulas

Coordinated Members

Two methods are used to compute benefits for Coordinated Plan members—a step-rate benefit accrual formula (Method 1) and a level accrual formula (Method 2). Members hired prior to July 1, 1989 receive the higher of the two calculated amounts. Only Method 2 is used for members hired after June 30, 1989.

Method 1: Coordinated members accrue 1.2 percent of the high-five salary for each of the first 10 years of public employment, and 1.7 percent of that average salary for each successive year. Using this calculation, members are eligible for a full (unreduced) retirement annuity if:

- ➡ They are age 65 or over with at least one year of public service; or
- ➡ Their age plus years of public service equal 90 (Rule of 90).

A reduced retirement annuity is payable as early as age 55 with three or more years

NOTE:

- * Officials first elected to a governing body, such as a city council or county board after June 30, 2002, may only participate in PERA's Defined Contribution Plan. Previously, such officials could elect Coordinated Plan participation as an alternative to the DCP.
- ** In addition to the base employer contribution, MERF employers share the responsibility of meeting the fund's unfunded liability with the State of Minnesota.

- *** This is the rate established for elected public officials and physicians. For ambulance service personnel, participation in the program and contributions made for employees are at the discretion of employers. Salaried employees may match this contribution. City managers may participate in the DCP as an alternative to Coordinated Plan membership.

Summary

(Continued)

NOTE:

* Selection of a Survivor Option will result in a reduction in the amount of the pension from the Single-Life pension level. The amount of the reduction depends on the age of both the retiring member and the survivor.

All survivor pension options incorporate an "automatic bounce back" feature. This returns the amount of the pension to the level of the Single-Life benefit in the event the designated survivor predeceases the retiree. The cost of this protection is borne by the funds, not by the retiree.

of service. The reduction is 0.25 percent for each month under age 65. A member with 30 or more years of service may retire at any age with the 0.25 percent reduction made from age 62 rather than 65.

Method 2: Coordinated members earn 1.7 percent of their high-five salary for every year of public service. This calculation provides for unreduced retirement benefits at age 65 for members first hired prior to July 1, 1989, and at the age for unreduced Social Security benefits, capped at age 66, for those first hired into public service on or after that date.

Early retirement results in an actuarial reduction with augmentation (about 6 percent per year) for members retiring prior to full retirement age.

Police and Fire Members

Members receive 3 percent of average salary for each of their years of service. An unreduced retirement annuity is payable to members when they meet the following conditions:

- Age 55 with a minimum of three years of service (five years if hired after June 30, 2010); or
- Age plus years of service equal at least 90 (if first hired prior to 7/1/89).

A reduced retirement annuity is available to members between the ages of 50 and 55. There is a 1.2 percent reduction in benefits for each year a member retires prior to qualifying for an unreduced retirement benefit. (For members hired or rehired after June 30, 2007, the reduction is 2.4 percent per year.)

Correctional Service Members

Correctional Plan members earn 1.9 percent of their average salary for every year of public service under the plan.

A full, unreduced pension, is earned at:

- Age 55 with three or more years of service (five years if hired after June 30, 2010); or
- Age plus years of service total at least 90 (if hired prior to 7/1/89).

An actuarial reduction with augmentation is made in a member's benefit for retirement prior to qualification for an unreduced pension.

Defined Contribution Plan Members

The Defined Contribution Plan's benefit amount is determined by the performance of the funds in which contributions are invested. The entire market value of the member's account becomes payable upon termination of public service, disability, retirement, or death.

Statewide Volunteer Firefighter Retirement Plan Members

Members qualify for a lump-sum benefit any time after age 50 with five or more years of service. A full, unreduced pension is payable after 20 years of service. The municipality and department determine the benefit level for each year of credited service.

Minneapolis Employees Retirement Fund Members

MERF members earn 2.0 percent of their high-five average salary for each of their first 10 years of public service and 2.5 percent thereafter. Full retirement age is 60 or the member must have accrued a minimum of 30 years of service. Members can retire as early as age 55 with 20 or more years of service under an alternative formula known as the "Two Dollar Bill Option" if hired prior to June 28, 1973.

TYPES OF PENSIONS AVAILABLE

Members of the PERA Coordinated, Basic, Correctional, and Police and Fire plans may select from several types of retirement benefits.

Single-Life Pension — A Single-Life Pension is a lifetime annuity that ceases upon the death of the retiree. No survivor benefit is payable.

Survivor Options — Upon retirement, members may choose from one of four Survivor Options. All these pensions are payable for the lifetime of the retiree. At the time of the retiree's death, the designated survivor begins to receive monthly benefit payments at varying levels for his or her lifetime. Depending on the Survivor Option chosen by the member, survivor payments are at a 25, 50, 75 or 100 percent level of that received by the member.*

Pre-Age 62 Increase — This pension option allows a member who retires before age 62 to receive a greater monthly payment until he or she becomes eligible for Social Security at age 62. The monthly benefit amount is then permanently reduced by at least \$100 at age 62.

Deferred Pension — A vested member who terminates public service may leave contributions in the fund(s) in which he or she participated and qualify for a pension at retirement age. The benefit amount, calculated as of the date of termination, will increase at a rate of 1 percent per year, compounded annually, for members who terminate public service prior to January 1, 2012. There is no benefit growth for members terminating service thereafter.

Combined Service and Proportionate Pensions — Retiring members may elect to combine service in a PERA-covered position with service in any of 13 other Minnesota pension funds and qualify for a retirement benefit from each fund in which they participated. These funds are designated by statute. Vested members qualify for a combined service pension if they have six or more months of service in each fund and have not begun to receive a benefit from any of the designated funds. Pensions are based upon the formula of each fund and the member's average salary over the five highest-paid years of service, no matter when it was earned.

Public employees who retire at age 65 or older with between one and three years of service in one or more of 11 designated funds may qualify for a proportionate pension. Benefits are paid by each applicable fund in which the employee has credit and are based upon the formula of each fund and the member's average salary during the period of service covered by that fund.

Minneapolis Employees Retirement Fund members have the choice of a single-life, with or without a death benefit. Also available are 100 percent or 50 percent joint and survivor annuities. A bounce back option is available for both joint and survivor pensions with a reduc-

tion in benefits. A 10-year term certain benefit is another option. Finally, MERF allows for custom annuity plans as long as they are actuarially equivalent to the single-life pension,

The Statewide Volunteer Firefighter Retirement Plan and the Defined Contribution Plan only provide lump-sum benefits.

EARNINGS LIMITATION

Retirees who return to work in a PERA-covered position are subject to the same earnings limitations as Social Security recipients. Benefits are reduced if these limits are exceeded, with the amount held in escrow. The retiree may request repayment of these funds one year after leaving the position. If reemployment extends through the end of a calendar year, the deductions from that year may be reclaimed one year later.

The earnings limitation only applies to PERA-covered employment. Self- or private employment and elected service will result in no benefit reduction for retirees.*

Because they only provide lump-sum benefits, the Defined Contribution Plan and the Statewide Volunteer Firefighter Retirement Plan have no earnings limits.

DISABILITY BENEFITS

Members may be eligible for benefits from PERA if they are unable to work because of a physical or mental disability. Disability is defined by statute, and PERA may require periodic medical examinations of those receiving these benefits.

Disability benefit calculations are based upon years of service and average high-five salary for Coordinated members. For Police and Fire plan members, there is a minimum benefit of 60 percent of salary if disabled while engaged in hazardous activities related to the occupation. The minimum duty-related disability benefit is 47.5 percent for Correctional members. Disability under any other circumstances results in a minimum benefit of 45 percent of salary for Police and Fire members and 19 percent for Correctional members. **

Coordinated members qualify for disability when vested for a retirement benefit, and by meeting the statutory definition. Police and Fire and Correctional members qualify by meeting the definition with one or more

NOTE:

* Earnings limits are waived for Coordinated members who begin receiving benefits under a Phased Retirement Agreement. Phased Retirement allows members age 62 and above to begin receiving a pension without termination of public service if they accept a reduction in hours worked to less than 1,044 per year. The agreements can be up to one year in length and can be renewed for up to five years. The program sunsets in 2014.

** A duty disability benefit will only be awarded if the disabling event occurred while the member was engaged in hazardous activities inherent to the occupation.

Summary

(Continued)

NOTE:

- * Automatic lifetime Survivor Benefits are also available to the spouse of Police and Fire members who suffer total and permanent duty disability. Survivor benefits for other disabled members are only available if the member chooses a Survivor Option to their disability benefit.
- ** Survivor benefits are immediately suspended for any survivor charged with causing the death of an association member. The benefit is permanently revoked upon conviction of such a crime.

This is a summary of the laws, regulations, and administrative rules governing the Public Employees Retirement Association and should not be interpreted as a comprehensive explanation thereof. If there is any discrepancy between this summary and the actual law, the provisions of the law will govern.

years of service if disabled outside the line of duty. If disabled in the line of duty, there is no minimum service requirement.

MERF disability benefits are based upon the capability of performing a member's ordinary duties and require that the member be under age 60. If the disability is not duty related, a member must have a minimum of five years of public service. The benefit formula is essentially the same as the retirement formula at age 60 using the actual number of years worked with the additional years the member would have worked to reach age 60. There is a maximum of 22 years of total service unless the member has earned more than 22 years of service on the job.

Neither the Defined Contribution Plan nor the Statewide Volunteer Firefighter Retirement Plan have specific disability benefits. However, the DCP does allow for monthly benefit payments until the account balance is exhausted.

SURVIVOR BENEFITS

PERA also provides survivor (death) benefits for families of members who qualify for such coverage should they die before commencing retirement benefit payments. The qualifications and types of benefits vary with each plan.

A Lifetime Survivor Benefit is available to the surviving spouse of a Coordinated, Correctional, or Police and Fire member. For Police and Fire members, this benefit is based on either 50 percent of the member's average salary during the six months prior to death or a formula using the member's total years of service, high-five salary, age at death and age of the spouse. The surviving spouse benefit for Coordinated and Correctional members is only based on the formula. This benefit is payable to the spouse of a deceased member for life, even upon remarriage.*

For the surviving spouse of a Coordinated or Correctional member, there are alternative term-certain benefits of 10, 15, or 20 years duration. The monthly payment, however, may not exceed 75 percent of the member's average high five-year salary.**

Dependent children of active or disabled Police and Fire members are eligible for benefits until age 18, or age 23 if full-time students. In this case, the

maximum family benefit is 70 percent of the member's average monthly salary. If a Coordinated or Correctional member dies and there is no surviving spouse, any children under age 20 qualify to receive a monthly term-certain benefit.

Instead of a monthly benefit, the surviving spouse, if a designated beneficiary, may elect a refund of any remaining employee contributions in the account, plus 6 percent interest compounded annually. However, a refund may not be elected if there are dependent children who are eligible for benefits.

The surviving spouse of a MERF member with 20 or more years of service qualifies for the actuarial equivalent of the member's retirement benefit. If less than 20 years of service were earned, the spouse benefit is 30 percent of the member's average salary over the six months preceding death, with 10 percent of that salary for dependent children.

The Statewide Volunteer Firefighter Retirement Plan provides for payment of the member's accrued benefits to a surviving spouse or, if none, to minor children or, finally, the member's estate, based on retirement at age 50.

Similarly, the Defined Contribution Plan provides for payment of the account balance to beneficiaries.

REFUNDS

Refunds of contributions are available at any time to members who leave public service and have not yet begun receiving a pension. The refund includes employee contributions plus 4 percent interest, compounded annually.

A refund of member contributions plus interest may also be elected by the designated beneficiary of a member or former member who dies before reaching retirement. If there is no beneficiary, payment is made to the surviving spouse or, if none, to the estate of the deceased member or former member.

If a retiree and designated survivor, if any, die before all employee contributions are paid in the form of a pension or benefits, the remaining balance would be paid in the same manner outlined for beneficiaries.

No interest is paid to beneficiaries on the balance in an account if the member was receiving retirement benefits.

Legislative Auditor's Report

OFFICE OF THE LEGISLATIVE AUDITOR
STATE OF MINNESOTA • James Nobles, Legislative Auditor

Independent Auditor's Report

Members of the Board of Trustees
Public Employees Retirement Association of Minnesota

Ms. Mary Most Vanek, Executive Director
Public Employees Retirement Association of Minnesota

We have audited the accompanying basic financial statements of the Public Employees Retirement Association of Minnesota (PERA) as of and for the year ended June 30, 2012, as listed in the Table of Contents. These financial statements are the responsibility of PERA's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net assets of PERA as of June 30, 2012, and the changes in plan net assets for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As explained on page 38 in Note D to the financial statements, four independent police and fire retirement plans merged into PERA's Police and Fire Fund during fiscal year 2012. The Minneapolis Firefighters Relief Association and the Minneapolis Police Relief Association merged on December 30, 2011. The Virginia Firefighters Relief Association and the Fairmont Police Relief Association merged on June 29, 2012. On the dates of the mergers, the merged plans added a total of \$488 million to the fund's assets.

In accordance with *Government Auditing Standards*, we will also issue a report on our consideration of PERA's internal control over financial reporting; on our tests of its compliance with certain provisions of laws, regulations, and contracts; and on other matters.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and the other required supplementary information, as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Room 140 Centennial Building, 658 Cedar Street, Saint Paul, Minnesota 55155-1603 • Tel: 651/296-
E-mail: auditor@state.mn.us • Web Site: www.auditor.leg.state.mn.us • Through Minnesota

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise PERA's basic financial statements. The Supporting Schedules in the Financial Section, and the Introductory, Investment, Actuarial, and Statistical Sections, as listed in the Table of Contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The Supporting Schedules in the Financial Section have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The Introductory, Investment, Actuarial, and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Management Discussion and Analysis

As management of Minnesota's Public Employees Retirement Association (PERA), we present this discussion and analysis of the financial activities for the year ended June 30, 2012 (FY12). This narrative is intended to supplement the financial statements which follow this discussion, and should be read in conjunction with the transmittal letter, which begins on page 5 of this annual report.

Overview of the Financial Statements

This Comprehensive Annual Financial Report (CAFR) contains two basic financial statements: the Statement of Plan Net Assets and the Statement of Changes in Plan Net Assets. These financial statements, in conjunction with the accompanying Notes to the Financial Statements, report information about PERA's financial condition in an attempt to answer the question: "Is PERA better off or worse off as a result of this year's activities?" These statements are prepared using the accrual basis of accounting as is required by generally accepted accounting principles laid out in statements issued by the Government Accounting Standards Board (GASB).

The Statement of Plan Net Assets provides a snapshot of account balances at year-end. It reports the assets available for future payments to benefit recipients, along with any liabilities that are owed as of the

statement date. The difference between assets and liabilities, called "Net Assets," represents the value of assets held in trust for future benefit payments. Over time, increases and decreases in Net Assets can be one measurement of whether PERA's financial position is increasing or decreasing.

The Statement of Changes in Plan Net Assets, on the other hand, shows additions and deductions to Net Assets during the year. The increase or decrease in Net Assets reflects the change in Net Assets found on the Statement of Plan Net Assets from the prior year to the current year.

The Notes to the Financial Statements are an integral part of the financial statements and provide additional information that is essential for a comprehensive understanding of the data provided in the financial statements. The Notes describe the accounting and administrative policies under which PERA operates, and provide additional levels of detail for selected financial statement items.

These financial statements should be reviewed along with the Schedule of Funding Progress and Schedule of Employer Contributions to determine whether PERA is becoming financially stronger or weaker over time. PERA's funding objective is to meet long-term benefit obligations through contributions received and the income derived by investing those contributions during the working career of our members. These two schedules, created by an actuary, show the ratio of the actuarial value of assets to the actuarial accrued liability, and to what extent contributions needed to fully fund the plan are being received.

Financial Highlights

- PERA's Net Assets increased 1.9% during the year from \$20.2 billion in fiscal year 2011 (FY11) to \$20.5 billion in FY12.
- Total additions for FY12 were \$2 billion, comprised of contributions of \$970 million, investment gains of \$505 million, a transfer of assets from new participants in the Statewide Volunteer Firefighter Retirement Plan of \$3 million, a transfer of assets from new participants in the Police & Fire Plan of \$488 million, and other income of \$1.2 million.
- Total deductions for the year increased from \$1.5 billion in FY11 to \$1.6 billion in FY12 largely due to an increase in the number of benefit recipients and a 1% COLA granted in January 2012.
- As of June 30, 2012 the General Employees Retirement Fund is actuarially funded at 73.5%. PERA's Police and Fire Fund is actuarially funded at 78.3%, and PERA's Correctional Fund is 89.3% funded. The Minneapolis Employees Retirement Fund is 69.1% funded.

Financial Analysis of PERA's Funds

PERA is the administrator of four multi-employer cost-sharing defined benefit plans, one agent lump-sum defined benefit plan, and one defined contribution plan. In a defined contribution plan, pension benefits are determined by contributions made to a member's account and investment returns for those contributions. PERA administers one such

plan: the Public Employees Defined Contribution Plan (PEDCP). In a defined benefit plan, pension benefits are determined by a member's salary or benefit level and credited years of service, regardless of contribution amounts and investment returns for those contributions over the working career of a member. PERA administers five such plans: the General Employees Retirement Fund (GERF), the Public Employees Police and Fire Fund (PEPFF), the Minneapolis Employees Retirement Fund (MERF), the Statewide Volunteer Firefighter Retirement Plan (SVF) and the Public Employees Local Government Correctional Services Retirement Fund (which is called the Public Employees Correctional Fund or PECF).

General Employees Retirement Fund

Total assets as of June 30, 2012 were \$14.8 billion in the GERF, an increase of \$261 million or 1.8 percent from the prior year. The primary reason for the increase was an increase in securities lending collateral at the end of the year.

Total liabilities as of June 30, 2012 were \$1.24 billion, an increase of \$300 million from the prior year, mostly due to a higher value of securities lending collateral on the books at year end.

Total net assets, the difference between total assets and total liabilities, decreased \$39 million, less than 1 percent from the prior year. Ending net assets were \$13.6 billion on June 30, 2012.

Additions to Plan Net Assets

The reserves needed to finance retirement benefits are accumulated through the collection of member and employer contributions and through earnings on investments. Total contributions and net investment income for FY12 exceeded \$1 billion.

Employer contributions and member contributions increased from the previous year by a total of \$21 million, largely due to salary increases. Net investment income totaled \$320 million as the result of a 2.4 percent rate of return in FY12.

Deductions from Plan Net Assets

Our largest expense was for retirement benefits to members and beneficiaries. Total benefits increased 5 percent to \$1 billion in FY12. The increase in benefits resulted from an increase in the number of benefit recipients and a 1 percent cost of living increase for most retirees effective January 1, 2012.

Discussion and Analysis

(Continued)

Overall Financial Position

The financial position of a public pension plan is not so much determined by what is found on the face of the financials, but by looking at trends in the funding ratio and contribution sufficiency or deficiency.

The actuarial value of assets increased by \$206 million in FY12 to \$13.7 billion, which is slightly higher than the fair value of assets. The funding ratio declined slightly, from 75.2% in FY11 to 73.5% in FY12.

For the past several years, contribution rates have not been sufficient for the GERF to become fully funded by its target date of 2031. As part of a financial package passed by the legislature in 2010, contribution rates for employers and employees were each increased 0.25% effective January 1, 2011. Assumption changes passed by the legislature in 2012, however, increased the unfunded actuarial accrued liability by over \$240 million. Contributions are now deficient by 0.96% of pay to reach fully funded status by 2031.

Public Employees Police & Fire Fund

Total assets as of June 30, 2012 were \$6.3 billion in the Public Employees Police and Fire Fund, an increase of \$617 million, or 11 percent from the prior year. The increase is due to the merger of four

relief associations into the PEPFF plus a larger amount of securities lending collateral on the books at year end. Total liabilities as of June 30, 2012 were \$532 million, an increase of \$161 million due to the larger securities lending collateral.

Total net assets, the difference between total assets and total liabilities, increased \$455 million or roughly 8.5 percent from the prior year to an ending balance of \$5.8 billion.

Additions to Plan Net Assets

Legislation passed in 2011 and 2012 merged the Minneapolis Police, Minneapolis Fire, Virginia Fire and Fairmont Police relief associations into the PEPFF in fiscal year 2012. Assets of \$488 million were transferred into the plan. Employer and employee contributions increased \$15 million in FY12, largely due to the additional active members from Minneapolis and salary increases across the board. Net investment income in FY12 totaled \$157 million, due to a 2.4 percent investment return.

Deductions from Plan Net Assets

Retirement benefits to members and beneficiaries made up over 99 percent of the plan's total deductions. The amount of benefits paid increased 13 percent in FY12 to \$386 million. The increase in benefits resulted from an increase in the number of benefit recipients (as a result of the four mergers) plus a one percent cost of living increase for most retirees effective January 1, 2012.

Overall Financial Position

The Police and Fire Plan was 78.3% funded as of June 30, 2012. The funding ratio has been falling steadily for the past thirteen years. Despite plan provision changes

Changes in Net Assets—Defined Benefit Plans (dollars in thousands)

	GERF		PEPFF		PECF	
	2012	2011	2012	2011	2012	2011
ADDITIONS						
Employer Contributions	\$ 368,037	\$ 357,596	\$ 121,891	\$ 109,604	\$ 14,320	\$ 14,289

Other	0	0	0	0	0	0
Total Deductions	\$1,049,399	\$ 998,674	\$388,587	\$ 344,993	\$6,370	\$ 5,593
Increase in Net Assets	\$ (38,969)	\$2,278,040	\$455,015	\$ 863,295	\$25,377	\$68,663

made in 2010 and contribution rate increases in FY11, the plan's contribution rates remain 7.94% of pay deficient for the plan to become fully funded by 2039. PERA's management will continue to work with various police and fire groups to shore up the fund.

Public Employees Correctional Fund

In the Public Employees Correctional Fund, total assets as of June 30, 2012 equaled \$333 million, an increase of \$33 million or 11% from the prior year. The increase is due to positive investment earnings plus a larger amount of securities lending collateral on the books at year end. The PECF is a fairly new fund with a small asset base, and brings in more cash through contributions than it pays out in benefits and refunds. Total liabilities increased slightly in FY12 due to a larger amount of securities lending collateral at the end of the year. As a result, total net assets, the difference between total assets and total liabilities, increased \$25 million in fiscal year 2012, with an ending net asset value of \$305 million.

Additions to Plan Net Assets

Contributions and net investment income for FY12 totaled \$32 million, compared to \$74 million in FY11. Employer and member contributions remained fairly equal to FY11 levels. Net investment income in FY12 totaled \$7.8 million, due to a 2.4 percent investment return.

Deductions from Plan Net Assets

Expenses for this plan are still relatively small. Retirement benefits increased 19% from \$4 million in FY11 to \$4.8 million in FY12 as more members became eligible to retire.

Overall Financial Position

In only its thirteenth year of existence, the Public Employees Correctional Fund is 89.3% funded, a slight decrease from last year's 96.5%. Due to the results of a recent experience study, several actuarial assumptions were adjusted in FY12, which resulted in a lower funding ratio. Fortunately, contribution rates are still sufficient for the plan to become fully funded by 2031.

Minneapolis Employees Retirement Fund

The Minneapolis Employees Retirement Fund (MERF) was formed in 1919. In 2010 legislation was passed that consolidated MERF as a separate plan administered by PERA effective June 30, 2010. MERF was closed to new members on July 1, 1978, and only 80 active members remain in the plan.

Total assets as of June 30, 2012 were \$915 million, a decrease of \$57 million, or 5.8 percent from the prior year, mostly due to benefits exceeding contributions for this closed group of members. Total liabilities as of June 30, 2012 were \$72 million, an increase of \$11 million due to a higher amount of securities lending collateral on the books at year end.

Total net assets, the difference between total assets and total liabilities, decreased \$68 million, or roughly 7.5 percent from the prior year, to an ending balance of \$843 million.

Additions to Plan Net Assets

Additions for FY12 totaled \$73 million. MERF's employers increased their contributions from \$5 million to \$31 million in accordance with legislation passed in 2010 that created a supplemental contribution, which was first payable in July 2012. Net investment income in FY12 totaled \$18 million compared to \$183 million in FY11 when investments returned 23.3 percent.

Deductions from Plan Net Assets

Retirement benefit expenses decreased over \$3 million in FY12 due to more benefit recipient deaths (211) than new benefit recipients added (38). Over 99% of deductions were due to benefit payments.

Overall Financial Position

Before consolidating, MERF's financial outlook was bleak. The plan was expected to run out of money within the next ten years. Legislation passed in 2010 consolidating MERF into PERA also included changes

MERF		SVF

Discussion and Analysis

(Continued)

to plan provisions and contribution rate increases to shore up that fund. Future cost of living increases will be limited to 1% per year until the plan is 90% funded. State contributions were increased \$15 million per year, phased in over the next four years. Employer contributions were also increased by roughly \$25 million per year beginning in 2012. The amortization period was extended from 2020 to 2031. These measures have improved the funding ratio of the fund, from 65.6% funded at the end of FY10, when it was consolidated into PERA, to 69.1% funded at the end of FY12.

Statewide Volunteer Firefighter Retirement Fund

The Statewide Volunteer Firefighter Retirement Plan is a new agent lump-sum defined benefit plan that began January 1, 2010 with 6 fire departments and 129 volunteer firefighters. An additional 12 fire departments joined the plan in FY11 and transferred \$2,450,000 in assets. In FY12, 17 more fire departments joined the plan and transferred \$3 million in assets. Total assets increased from \$3.8 million in FY11 to \$7.5 million in FY12 due to the transfer in assets plus a larger securities lending collateral amount on the books at year end. Total liabilities increased \$436 thousand because of that collateral.

In its second full year, the plan received \$118,000 in contributions from employers and \$153,000, mostly from fire state aid, from the State of Minnesota. Net investment income totaled \$254,000. Benefits paid

totaled \$273,000. That amount is twice as much as was paid out in FY11, largely because the plan now has twice as many members. The plan is funded through fire state aid from the State of Minnesota, investment returns, and annual employer contributions (if they are needed to keep each fire department's account 100% funded). Net assets increased 94 percent from FY11 to \$6.8 million, largely due to the additional fire departments that joined during the year.

Agency Summary

The worst financial crisis in decades had a negative effect on our investment returns in FY08 and FY09, resulting in fairly large losses in our asset base. In order to help shore up the plans, legislation passed in 2010 adjusted many of PERA's plan provisions and increased contributions in three of the four multi-employer defined benefit plans. Investment returns in FY10 and FY11 were very positive, but returns in FY12 were only 2.4 percent, below our assumed earnings assumption of 8.5 percent. PERA's earnings assumption will be lowered to 8.0 percent for the next five years in accordance with statute, which increased the unfunded liability this year. Contribution rates are still sufficient to get the PECF and the MERF fully funded as required by law. Contribution rates are slightly deficient in the GERE, and quite a bit deficient in the PEPFF. We will continue to work with police and fire fund members and employers to shore up that fund.

This financial report is designed to provide a general overview of PERA's finances and to demonstrate its accountability with the assets it holds in trust. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to PERA at 60 Empire Drive, Suite 200 in St. Paul, Minnesota 55103-2088.

Notes to the Financial Statements

For the Fiscal Year Ended June 30, 2012

A. PLAN DESCRIPTION

1. Organization

PERA is the administrator of four cost-sharing, multiple-employer retirement plans; one agent multiple-employer retirement plan; and one multiple-employer deferred compensation plan.

The Public Employees Retirement Association (PERA) is the administrator of four cost-sharing, multiple-employer retirement plans, the General Employees Retirement Fund (GERF), the Public Employees Police and Fire Fund (PEPFF), the Public Employees Local Government Correctional Service Retirement Fund, called the Public Employees Correctional Fund (PECF), and the Minneapolis Employees Retirement Fund (MERF). In addition, PERA administers one agent, multiple-employer retirement plan, the Statewide Volunteer Firefighter Retirement Plan (SVF) and one multiple-employer deferred compensation plan, the Public Employees Defined Contribution Plan (PEDCP). PERA also administers an agency fund to track the investments placed in a trust by various entities with the State Board of Investment to cover future other postemployment benefit costs. The plans, including benefit provisions and the obligation to make contributions, are established and administered in accordance with Minnesota Statutes, Chapters 353, 353A, 353B, 353D, 353E, 353G and 356. It is also these statutes that define financial reporting requirements.

2. Participating Employers

PERA serves approximately 2000 separate units of government in the GERF, 500 units of government in the PEPFF, 80 counties in the PECF, 35 fire departments in the SVF, 6 units

in the MERF, and 1000 units in the PEDCP. These units of government are made up of counties, cities, townships, school districts, and other units of government whose revenues are derived from taxation, fees, or assessments. The defined contribution plan serves any local unit of government whose current or former elected officials elect to participate. The PEDCP also serves any publicly operated ambulance service that receives an operating subsidy from a governmental entity, and elects to participate.

3. Participating Members

The GERF covers employees of counties, cities, townships and employees of schools in non-certified positions throughout the State of Minnesota. The PEPFF, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the PEPFF also covers police officers and firefighters belonging to a local relief association that elected to merge with and transfer assets and administration to PERA. The PECF covers employees in county correctional institutions who have direct contact with inmates. The MERF covers employees hired prior to July 1, 1978 by the participating employers and was a stand-alone agency until it was consolidated under PERA on June 30, 2010 in accordance with legislation passed in 2010. The SVF covers approximately 750 volunteer firefighters whose fire departments elected to be covered by PERA. Coverage under the PEDCP is open to elected local government officials (except elected county sheriffs), emergency medical service personnel employed by or providing service to any of the participating ambulance services, and physicians employed at public

Plan Participation

Total	374,506	22,545	7,885	4,204	409,140

facilities. Elected officials and ambulance personnel who are covered by a public or private pension plan because of their employment are not eligible to participate in the PEDCP. At June 30, 2012, there were 7,435 members in the PEDCP.

Shown in **Figure 1** below are the membership totals in PERA's multi-employer defined benefit plans as of June 30, 2012.

4. Benefit Provisions - Defined Benefit Annuity Plans

PERA's defined benefit plans are tax qualified plans under Section 401(a) of the Internal Revenue Code. PERA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. All benefits for members first hired before July 1, 2010 vest after three years of credited service. Benefits for GERF members first hired after June 30, 2010 vest after five years of credited service. Benefits for PEPFF and PECF members first hired after June 30, 2010 vest on a pro-rated basis from 50% after five years up to 100% after 10 years of credited service. Retirement benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. GERF members belong to either the Basic or Coordinated Plan. Coordinated members are covered by Social Security and Basic members are not. All new GERF members must participate in the Coordinated Plan. Two methods are used to compute benefits for Coordinated and Basic members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2).

Under **Method 1**, the annuity accrual rate for Basic members is 2.2 percent of average salary for each of the first ten years of service and 2.7 percent for each remaining year. For a Coordinated member, the annuity accrual rate is 1.2 percent of average salary for each of the first ten years of service and 1.7 percent for each remaining year. Under **Method 2**, the annuity accrual rate is 2.7 percent of average salary for Basic members and 1.7 percent for

Coordinated members for each year of service. For PEPFF members, the annuity accrual rate is 3.0 percent of average salary for each year of service. For GERF members whose annuity is calculated using Method 1, and for all PEPFF and PECF members who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90. A reduced retirement annuity is also available to eligible members seeking early retirement. The annuity accrual rate for PECF members is 1.9 percent of average salary for each year of service in that plan. The annuity accrual rate for MERF members is 2.0 percent of average salary for each of the first ten years of service and 2.5 percent for each remaining year. MERF members may choose a death benefit option with the death benefit being at least \$500 and not more than one half the value of the employee's total retirement benefit.

The benefit provisions stated in the preceding paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

5. Benefit Provisions and Contribution Rates—Lump-Sum Defined Benefit Plan

The Statewide Volunteer Firefighter Retirement Plan, first available on January 1, 2010, is a lump-sum defined benefit plan funded by fire state aid, investment earnings and (if necessary) employer contributions. Members do not contribute to the plan. Employer contributions are determined annually. If fire state aid plus investment income are not expected to cover the normal cost of benefits during the next calendar year, an employer contribution is calculated and payable by the end of the next calendar year. Benefits are paid based on the number of years of service multiplied by a benefit level chosen by the entity sponsoring the fire department

PERA's defined benefit plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

The Statewide Volunteer Firefighter Retirement Plan, first available on January 1, 2010, is a lump-sum defined benefit plan primarily funded by fire state aid.

Notes

(Continued)

Pooled Accounts

(Portfolio Allocation 6/30/12)

PERA functions as a separate statutory entity. The association maintains rights to sue or be sued in its own name and to hold property in its own name. For financial reporting purposes, PERA is considered a pension trust fund of the State of Minnesota.

from 20 possible levels ranging from \$500 per year of service to \$7,500 per year of service. Plan provisions include a pro-rated vesting schedule that increases from 5 years at 40 percent through 20 years at 100 percent. The plan is established and administered in accordance with Minnesota Statutes, Chapter 353G.

6. Benefit Provisions and Contribution Rates—Defined Contribution Plan

The PEDCP is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal. (See Notes A.2 and A.3 for employer and employee membership requirements.) The plan is established and administered in accordance with Minnesota Statutes, Chapter 353D.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. Minnesota Statutes, Chapter 353D.03, specifies the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official or physician who decides to participate contributes 5 percent of salary, which is matched by the employer. For ambulance service personnel, employer contributions are determined by the employer, and for salaried employees must be a fixed percentage of salary. Employer contributions for volunteer personnel may be a unit value for each call or period of alert duty. Employees who are paid for their services may elect to make member contributions in an amount not to exceed the employer share. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. Investment options include the Income Share, Growth Share, Common Stock Index, Bond Market, Money Market, International Share, and the Fixed Interest accounts. For administering the plan, PERA receives 2.0 percent of employer contributions paid during the year, plus twenty five-hundredths of one percent (0.25%) of the assets in each member's account each year.

There is no vesting period required to receive benefits in the PEDCP. At the time of retirement or termination, PERA distributes the market value of a member's account to the member or transfers it to another qualified plan or indi-

vidual retirement arrangement. Upon the member's death, PERA distributes the value of the account to the member's designated beneficiary.

7. Agency Fund

Minnesota Statute 353.95 allows the City of Duluth to invest money with the State Board of Investment (SBI) in a separate trust that will be used to pay future OPEB costs. Minnesota Statute 471.6175, added in the 2008 legislative session, allows any political subdivision or other public entity that has an OPEB liability to create a separate trust with the SBI to pay future OPEB costs. Since PERA already had a reporting relationship with those entities, the Association was asked to collect their voluntary contributions and send them on to SBI. The various entities are responsible for making sure any withdrawals are done in accordance with generally accepted accounting principles and Minnesota Statutes. They are also responsible for setting and paying benefits, for determining voluntary contribution amounts, and for handling any OPEB reporting requirements. Entities may transfer their assets from PERA/SBI to a bank or insurance company at any time. As of June 30, 2012, twenty three different entities had assets worth \$309 million in separate revocable and irrevocable trusts that will be used to pay OPEB costs in the future.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS

1. Reporting Entity

PERA functions as a separate statutory entity. The association maintains rights to sue or be sued in its own name and to hold property in its own name. For financial reporting purposes, PERA is considered a pension trust fund of the State of Minnesota and is included in the State's Comprehensive Annual Financial Report with its fiduciary funds. PERA does not have any component units.

2. Basis of Accounting

PERA financial statements for all funds are prepared using the accrual basis of accounting. Employee and employer contributions

are recognized as revenues when due, pursuant to formal commitments and statutory requirements. Expenses are recorded when the liability is incurred. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

3. Investment Policies and Valuation Methodology

- a) Pursuant to Minnesota Statutes, Section 11A.04, the state's retirement fund assets are commingled in various pooled investment accounts, administered by the State Board of Investment (SBI). As of June 30, 2012, the participation shares in the combined retirement funds at fair value totaled approximately 28.5 percent for the GERP, 12.1 percent for the PEPFF, 1.7 percent for the MERF and 0.64 percent for the PECF.
 - b) Minnesota Statutes, Section 11A.24, broadly restricts retirement fund investments to obligations and stocks of United States and Canadian governments, their agencies and their registered corporations; short term obligations of specified high quality; restricted participation as a limited partner in venture capital, real estate or resource equity investments; restricted participation in registered mutual funds; and some qualified foreign instruments.
 - c) Investments in the pooled accounts, including assets of the PEDCP and the agency fund, are reported at fair value. Fair value is the proportionate share of the combined market value of the investment portfolio of the SBI investment pool in which the funds participate. All securities within the pools are valued at market value except for U.S. Government short-term securities and commercial paper, which are valued at market less accrued interest. Accrued interest is recognized as short-term income. SBI values long-term fixed income securities by using the Financial Times Interactive Data Services valuation system. This service provides prices for both actively traded and privately placed bonds. For equity securities, SBI uses a valuation service provided by Reuters and market value is the last reported sales price for securities traded on national or international exchanges. If a security is not actively traded, then the fair value is based on the analysis of financial statements, analysis of future cash flows and independent appraisals.
- Assumptions made in valuing securities are as follows:
1. Values of actively traded securities determined by recognized exchanges are objectively negotiated purchase prices between willing buyers and sellers and are not subject to either undue influence or market manipulation.
 2. Values of securities not actively traded are determined by objective appraisals by qualified professional analysts whose results would not vary materially from those of other similarly qualified professionals. The fair value of investments is based upon valuations provided by a recognized pricing service. Securities traded on a national or international exchange are valued using the last reported trade price. Short-term investments are reported at cost, which approximates fair value. The fair value of real estate investments is based on independent yearly appraisals. Investments that do not have an established market are reported at estimated fair value.
 - d) Information about the primary government's (State of Minnesota) investments, including credit risk classification, can be obtained from Minnesota Management & Budget, 400 Centennial Building, 658 Cedar Street, St. Paul, Minnesota 55155. Information on specific investments owned by the pooled accounts, currency risk, interest rate risk, investment activity and investment management fees paid can be obtained from the Minnesota State Board of Investment at the Retirement Systems of Minnesota Building, 60 Empire Drive, Suite 355, St. Paul, Minnesota 55103.
 - e) Investment income is recognized as earned. Accrued investment income of the pooled investment accounts is included in participation in the accounts. Gains and losses on sales or exchanges are recognized on the transaction date.
 - f) The cost of security transactions is included in the transaction price. Administrative expenses of the State Board of Investment and investment management fees of the external money managers and the state's

Information about the primary government's investments, including credit risk classification, can be obtained from Minnesota Management & Budget, 400 Centennial Building, 658 Cedar Street, St. Paul, Minnesota 55155.

Notes

(Continued)

A detailed schedule of fees and commissions by brokerage firm, along with the number of shares traded, total commissions, and commissions per share may be obtained from the Minnesota State Board of Investment.

master custodian for pension fund assets are allocated to the funds participating in the pooled investment accounts. PERA's share of these expenses in fiscal year 2012 totaled \$18,479,412 for GERE, \$7,851,258 for PEPFF, \$1,078,730 for MERF, and \$413,979 for PECF. A detailed schedule of fees and commissions by brokerage firm, along with the number of shares traded, total commissions, and commissions per share for the pooled investment accounts may be obtained from the Minnesota State Board of Investment at the Retirement Systems of Minnesota Building, 60 Empire Drive, Suite 355, St. Paul, Minnesota 55103.

4. Cash

Cash on deposit consists of year-end receipts not processed as of the investment cutoff deadline on June 30. PERA cash funds are held in the state treasury, commingled with other state funds. Minnesota Statutes, Section 9.031, requires that deposits be secured by depository insurance or a combination of depository insurance and collateral securities held in the state's name by an agent of the state. Such insurance and collateral shall be in amounts sufficient to ensure that deposits do not exceed 90 percent of the sum of the insured amount and the market value of the collateral. Throughout fiscal year 2012, the combined depository insurance and collateral was sufficient to meet legal requirements and secure all PERA deposits, eliminating exposure to custodial credit risk.

5. Investment Risk

- a) Credit risk is the risk that an issuer or counterparty to an investment will be unable to fulfill its obligations to the holder of the investment. The State Board of Investment has policies designed to minimize credit risk. They may invest funds in governmental obligations provided the issue is backed by the full faith and credit of the issuer or the issue is rated among the top four quality

rating categories by a nationally recognized rating agency. They may invest funds in corporate obligations provided the issue is rated among the top four quality categories by a nationally recognized rating agency. They may also invest in unrated corporate obligations or in corporate obligations that are not rated among the top four quality categories provided that:

- The aggregate value of these obligations may not exceed five percent of the fund for which the state board is investing;
- Participation is limited to 50 percent of a single offering; and
- Participation is limited to 25 percent of an issuer's obligations.

SBI may also invest in bankers acceptances, deposit notes of U.S. banks, certificates of deposit, mortgage securities, and asset backed securities rated in the top four quality categories by a nationally recognized rating agency. Commercial paper must be rated in the top two quality categories.

PERA's share of SBI's exposure to credit risk, based on the lower of Moody's or S&P Quality Ratings for debt securities and short-term investments, is shown in **Figure 2**.

- b) Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issuer. SBI determined concentration of credit risk based on security identification number. PERA's defined benefit plans do not have a concentration of credit risk. PERA also administers an agency fund to track the investments placed in a trust by various entities with the State Board of Investment to cover future other postemployment benefit costs. Approximately \$15.7 million of the \$309 million in assets is invested in 27 Collateralized Mortgage Obligations (CMO) issued by the Federal Home Loan Mortgage Corporation (Freddie Mac).

- c) Interest rate risk is the risk that changes in interest rates of debt investments could adversely affect the fair value of an investment. The State Board of Investment does not have a policy on interest rate risk. Retirement plan and OPEB debt securities are held in external investment pools and PERA's share has the weighted average maturities shown in **Figure 3**.

- d) Foreign currency risk is the risk that changes in exchange rates between the U.S. dollar and foreign currencies could adversely affect the fair value of an investment. Most foreign currency risk resides within SBI's international equity investment holdings. In order to reduce foreign currency risk, the State Board of Investment has developed the following policies. Government obligations, including guaranteed or insured issues of the International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, and the African Development Bank, must pay interest and principal in U.S. dollars. The principal and interest of obligations of corporations, including those corporations incorporated or organized under the laws of the Dominion of Canada or any province thereof, must also be paid in U.S. dollars. SBI has less than a 15 percent exposure to currency risk. PERA's share of investments at June 30, 2012 was distributed among the currencies shown in **Figure 4**.

PERA's defined benefit plans do not have a concentration of credit risk.

Notes

(Continued)

Derivative financial instruments that SBI enters into include futures, options, stock warrants and rights, currency forwards, and synthetic guaranteed investment contracts.

6. Derivative Financial Instruments

On behalf of PERA, SBI invests in various types of derivative financial instruments. Derivatives are defined as any financial arrangement between two parties that has value based on or derived from future price fluctuations. The derivative financial instruments that SBI enters into include futures, options, stock warrants and rights, currency forwards, and synthetic guaranteed investment contracts.

Minnesota Statutes, Section 11A.24, provides that any agreement for put and call options and futures contracts may only be entered into with a fully offsetting amount of cash or securities. This applies to foreign currency forward contracts used to offset the currency risk of a security. All other derivatives are exchange-traded. The purpose of the SBI's derivative activity is to equitize cash in the portfolio, to adjust the duration of the portfolio, or to off-set current futures positions.

Explanations of each derivative instrument type are presented below. The fair value balances and notational amounts (or face value) at June 30, 2012, classified by derivative instrument type (e.g., futures, options, currency forwards, and stock warrants and rights), and the changes in fair value for fiscal year 2012 are shown in **Figure 5**.

➔ **Futures** — Futures are contract commitments to purchase (asset) or sell (liability) at a future date. The net change in the values of futures contracts is settled on a regular basis and gains and losses are included in investment income.

➔ **Options** — Options are contracts that give buyers or sellers the right to buy (calls) or sell (puts) a security at a predetermined price on a future date. Gains and losses result from variances in the market value of the security that is the subject of the contract that occur prior to or on the contract specified date. The gains and losses are included in investment income.

➔ **Currency Forward Contracts** — Foreign currency forward contracts are used to manage portfolio foreign currency risk. The provisions of the contract vary based on what is negotiated between the two parties to the contract.

➔ **Stock Warrants and Rights** — Stock warrants, similar to options, are the right to purchase shares of a stock at a certain price by a certain date. They usually have a longer term before expiration, e.g. five years or more. When exercised, new shares are issued by the company. Rights are the same but are issued to current stock owners to enable them to retain their relative ownership share. Gains and losses from the sale or exercise of stock warrants and rights are included in investment income.

SBI maintains a fully benefit-responsive synthetic guaranteed investment contract for the Supplemental Investment Fund - Fixed Interest Account. The investment objective of the Fixed Interest Account is to protect investors from loss of their original investment and to provide a competitive interest rate. On June 30, 2012, SBI's portfolio of well diversified high quality investment grade fixed income securities had a fair value of \$1,163,387,817 that is \$57,495,440 in excess

Fig. 6 Capital Assets (in thousands)

	Balance July 1, 2011	Additions	Deductions	Balance June 30, 2012

Total accumulated depreciation	\$(3,907)	\$(361)	\$541	\$(3,727)
Total capital assets, net of accumulated depreciation	\$ 9,016	\$(361)	\$0	\$ 8,655

of the value protected by the wrap contract. The Fixed Income Account also includes a liquid investment pool and a guaranteed investment contract with fair values of \$273,190,307 and \$86,752,321 respectively.

SBI is exposed to credit risk through the counterparties in foreign currency forward contracts that are used to offset the currency risk of a security. PERA's proportionate share of the maximum loss that SBI would have recognized as of June 30, 2012 if all counter parties failed to perform as contracted is \$1,347,324. These counter parties have S&P ratings of A or better.

7. Capital Assets

Capital assets, generally assets with a cost in excess of \$30,000 and a useful life greater than one year, are capitalized at the time of acquisition at cost. Depreciation is computed on a straight-line method over the useful life of the related assets. The estimated useful lives are three to ten years for furniture and equipment.

PERA's threshold for intangible assets is \$1,000,000. PERA did not have any intangible assets in FY12.

Capital assets are presented on the June 30, 2012 Statement of Plan Net Assets at historical cost, net of accumulated depreciation, as summarized in **Figure 6**.

Fig 7. Remaining Revenue Bond Repayment Schedule (In dollars)

Fiscal Year	PERA		Total P & I
	Principal	Interest	
2013	\$ 282,000	\$ 503,083	\$ 785,083

2029	714,400	88,548	802,948
2030	761,400	45,684	807,084
Totals	\$8,610,400	\$5,627,121	\$14,237,521

8. Building and Land

Legislation was passed in 1999 allowing PERA, the Minnesota Teacher's Retirement Association (TRA) and the Minnesota State Retirement System (MSRS) to purchase land and construct a 140,000 square foot building to house all three retirement systems. The systems moved into the facility in September 2001. Ownership of the facility is pro-rated based on the amount of square footage each retirement system occupies in the building. PERA's ownership share is 37.6 percent as of June 30, 2012. PERA's share of the cost to purchase the 4.3 acres of land was \$170,308.

In June 2000 the State of Minnesota, under the authority of the Commissioner of Finance, issued revenue bonds totaling \$29 million on behalf of the three retirement systems to pay for the construction of the facility. Those bonds are backed by the assets of the three retirement systems, excluding assets in the Defined Contribution Plans, and both principal and interest payments are made by the retirement systems using the same ownership ratio to determine amounts. At year end, PERA's share of the bonds payable (including one month of accrued interest payable) is \$8,651,441. We are depreciating the facility over 40 years. PERA's share of bond issuance costs are shown on the Statement of Plan Net Assets as Deferred Bond Charges and are being amortized over 30 years, the life of the bonds. The bond repayment schedule is shown in **Figure 7**.

9. Accrued Compensated Absences

PERA's employees accrue vacation leave, sick leave and compensatory leave at various rates within limits specified in collective bargaining agreements. Accumulated amounts for compensated absences are accrued when incurred. Such leave is liquidated in cash primarily at the time of termination of employment. The total liability at June 30, 2012 is \$943,707. Of this, \$98,107 is considered a short-term liability and \$845,600 is

Legislation was passed in 1999 allowing PERA, the Minnesota Teacher's Retirement Association (TRA) and the Minnesota State Retirement System (MSRS) to purchase land and construct a 140,000 square foot building to house all three retirement systems. The systems moved into the facility in 2001.

PERA, the Teachers Retirement Association and the Minnesota State Retirement System are depreciating the jointly-owned facility over 40 years.

Notes

(Continued)

Actuarial valuations are performed annually using the entry age normal actuarial cost method. Contributions are made as a level percentage of projected payroll, and are specified in statute as fixed percentages.

considered a long-term liability. The total increased by \$12,985 during fiscal year 2012.

10. Securities Lending

PERA does not own specific securities, but instead owns shares in pooled funds invested by the State Board of Investments (SBI). The SBI is authorized to enter into securities lending transactions in accordance with Minnesota Statutes, Chapter 356A.06, subd. 7 and has, via a Securities Lending Authorization Agreement, authorized State Street Bank and Trust Company to lend its securities to broker-dealers and banks pursuant to a form of loan agreement.

During the fiscal year, State Street lent, at the direction of the SBI, certain securities held by State Street as custodian and received cash (both United States and foreign currency), securities issued or guaranteed by the United States government, sovereign debt of foreign countries, and irrevocable bank letters of credit as collateral. State Street did not have the ability to pledge or sell collateral securities absent a borrower default. Borrowers were required to deliver collateral for each loan equal to at least 100% of the market value of the loaned securities.

Pursuant to the Securities Lending Authorization Agreement, State Street had an obligation to indemnify the SBI in the event of default by a borrower. There were no failures by any borrower to return loaned securities or pay distributions thereon during the fiscal year that resulted in a declaration or notice of default of the borrower.

During the fiscal year, the SBI and the borrowers maintained the right to terminate securities lending transactions upon notice. The cash collateral received on each loan was invested, together with the cash collateral of other qualified tax-exempt plan lenders, in a collective investment pool. As of June 30, 2012, the investment pool had an average duration of 3.87 days and an average weighted final maturity of 26.04 days for USD collateral. Because the loans were terminable at will their duration did not generally match the duration of the investments made with cash collateral. On June 30, 2012 SBI had no credit risk exposure to borrowers. The market value of the collateral held and the fair value of securities on loan from the SBI as of June 30, 2012 was \$3,094,514,469 and \$3,004,180,494 respectively. Cash collateral of \$1,859,656,735 is reported on the Statement of Plan Net Assets as an asset. Liabilities resulting from these securities lending transactions are also reported on the Statement of Plan Net Assets.

11. Funded Status

The funded status of each defined benefit plan as of June 30, 2012, the most recent actuarial valuation date, is shown in **Figure 8**. The Schedule of Funding Progress, presented as required supplementary information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities of promised benefits.

12. Actuarial Methods and Assumptions

Actuarial valuations are performed annually using the entry age normal actuarial cost method. Contributions are made as a level percent-

Fig.8 Schedule of Funding Progress (in thousands)

Plan	Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL)(b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b-a)/c]
GERF	06/30/2012	\$13,661,682	\$18,598,897	\$4,937,215	73.5%	\$5,142,592	96.0%
PEPFF	06/30/2012	5,797,868	7,403,295	1,605,427	78.3%	794,417	202.1%
PECF	06/30/2012	306,454	343,199	36,745	89.3%	164,340	22.4%
MERF	06/30/2012	842,811	1,219,735	376,924	69.1%	5,785	6,515.5%

age of pay, and are specified in statute as fixed percentages. There are no maximum or minimum salary limits imposed by statute. A closed amortization period is used, with 19 years remaining for the GERF and MERF, 27 years remaining for the PEPFF, and 19 years remaining for the PECF. For actuarial purposes, non-MERF assets are valued using a 5-year smoothing method. The plans assume an 8 percent investment rate of return for the next five years, then an 8.5 percent investment rate of return after that, with a 3 percent inflation rate. Total payroll is assumed to grow at 3.75 percent in the GERF, PEPFF and PECF. Assumed salary growth in the GERF decreases in annual increments from 12.03 percent after 1 year of service to 3.5 percent after 18 years of service. In the PEPFF salary growth assumptions decrease from 13 percent after 1 year of service to 4.5 percent after 23 years of service. In the PECF salary growth assumptions decrease from 9.0 percent at age 20 to 4.0 percent at age 65. In the MERF, salary is projected to grow 4% a year.

13. Changes in Assumptions and Plan Provisions

For all plans, decrement timing was changed from beginning of year to mid-year in 2012, and the investment return assumption was changed from 8.5% for all years to a 5-year select and ultimate approach, with 8.0% assumed for fiscal years 2013 through 2017 and 8.5% assumed beyond that.

In FY12 the salary increase rates in the GERF were updated to be approximately 25 basis points lower on average than the previous table. Augmentation for privatizations occurring after 2010 was also reduced. Actuarial assumption and methodology changes in the GERF increased the actuarial accrued liability by \$159,567,000.

Several assumptions were changed in the PECF. Mortality tables for pre-retirement and post-retirement were changed from 1983 GAM tables to RP 2000 tables. The mortality table for disabilitants was changed from a Combined Annuity Mortality table to an RP 2000 disabled mortality table. The salary increase assumption was changed to more closely reflect actual experience. The annual payroll growth assumption was

lowered from 4.5% to 3.75%. The optional form assumption for males changed from 0% to 5% electing the 25% Joint & Survivor (J&S) optional form, from 25% to 10% electing the 50% J&S form, 0% to 10% electing the 75% J&S optional form, and from 25% to 35% electing the 100% J&S optional form. The optional form assumption for females changed from 0% to 5% electing the 25% J&S and the 75% J&S optional forms. Actuarial assumption and methodology changes increased the actuarial accrued liability by \$24,719,000.

C. CONTRIBUTIONS REQUIRED AND CONTRIBUTIONS MADE

Minnesota Statutes, Chapters 353, 353A, 353B, 353E, 353G and 356 set the rates for employer and employee contributions. Contribution rates are shown in **Figure 9**. Contribution rates in the GERF and the PEPFF are not sufficient to get those funds fully funded by their statutory full funding dates of 2031 and 2038 respectively. Contribution rates in the PECF and MERF are expected to be sufficient to get those funds fully funded by their full funding dates of 2023 and 2031. The actuarially required contributions are expressed as a level percentage of covered payroll and are determined using an individual entry-age actuarial cost method.

Legislation passed in 2010 increased future contributions in the MERF. While employee and employer contributions remain at 9.75 percent of pay, and the employer additional contribution remains at 2.68% of pay plus each employer's share of \$3.9 million payable annually, a new employer supplemental contribution was added that will be calculated annually and cannot be less than \$27 million. The new contribution will not be paid until after June 30, 2012. The total of all employer contributions (regular, additional and supplemental) cannot exceed \$34 million. The State's contribution to MERF will also be calculated annually and cannot exceed new levels established by the legislation. In accordance with GASB 25, contributions in FY12 include the State of Minnesota's \$22.75 million contribution

Minnesota statutes set the rates for employer and employee contributions for PERA's defined benefit plans.

Notes

FY12 Contribution Rates

D. NEW RETIREMENT PLANS

The Statewide Volunteer Firefighter Retirement Plan (SVF), was created by the Minnesota legislature in 2009 and first received members and a corresponding transfer of assets from six relief associations or entities operating fire departments on December 31, 2009. Seventeen additional fire departments joined the plan on December 30, 2011. The amount of assets transferred, \$3,075,477, is shown as an "Other Addition" in PERA's Statement of Changes in Plan Net Assets for FY12. The plan is an agent lump-sum defined benefit plan. Each entity has a separate account and retains its own assets and liabilities.

Four independent police and fire relief associations were merged into PERA's Police & Fire Fund in FY12, including the Minneapolis Firefighters Relief Association, the Minneapolis Police Relief Association, the Virginia Firefighters Relief Association, and the Fairmont Police Relief Association. All four relief associations were formed in the late 1800's to early 1900's and all four had separate Boards and their own benefit provisions. They were all closed defined benefit plans. The Minneapolis plans were merged on December 30, 2011. Virginia Fire was consolidated as a separate plan on December 30, 2011 and then was merged into the PEPFF on June 29, 2012. Fairmont Police was also merged into the PEPFF on June 29, 2012. The amount of assets transferred into the PEPFF, \$487,935,862, is shown as an "Other Addition" in PERA's Statement of Changes in Plan Net Assets for FY12. An

additional municipal contribution will be calculated in FY13 and paid annually over a specified number of years should there be an unfunded accrued actuarial liability for each of those four associations as of June 30, 2012.

E. OTHER NOTES

1. Administrative Expenses

Administrative expenses of the Public Employees Retirement Association are paid during the year from the GERF. At year-end, a portion of the expenses are allocated to the PEPFF, the PECF and MERF, based on membership counts. The PEDCP reimburses the GERF to the extent of fees collected for recovery of administrative costs. The SVF reimburses the GERF \$30 per firefighter. The applicable amounts are reported as expenses of the five funds and reported on the Statement of Plan Net Assets as a payable to other funds or due from other funds. Administrative costs are funded from investment income for the defined benefit plans.

For fiscal year 2012, administrative expenses allocated to GERF, PEPFF, PECF, MERF, SVF and PEDCP totaled \$9,649,817, \$855,176, \$229,322, \$171,807, \$21,086 and \$144,581 respectively.

2. Participating Pension Plan

All employees of the Public Employees Retirement Association are covered by the GERF Coordinated Plan and eligible for the plan provisions described in Note A.4. Minnesota Statute 353.27 sets the rates for employee and employer contributions. These statutes are established and amended by the state legislature. Contribution rates are shown in **Figure 9**. Total covered payroll for PERA employees during fiscal year 2012 was approximately \$5.5 million.

Administrative expenses of PERA are paid during the year from the GERF. At year end, a portion of the expenses are allocated to the other covered funds based on membership counts.

Fig. 9 Retirement Plan Contribution Rates

Effective Date	Contributor	GERF		PEPFF	PECF	MERF
		Basic	Coordinated			
1/1/2011	Member	9.10%	6.25%	9.60%	5.83%	9.75%
	Employer	11.78%	7.25%	14.40%	8.75%	12.43%

Employer pension contributions for PERA employees for the years ending June 30, 2012, 2011 and 2010 were \$396,437, \$378,770, and \$353,569 respectively, equal to the required contributions for each year as set by state statute.

3. OPEB

Nearly all PERA employees are covered by the State Employees Group Insurance Plan (SEGIP) administered by the Department of Minnesota Management and Budget. At present, this plan subsidizes the cost of retiree insurance by charging a single premium rate for active employees and retirees, regardless of underwriting experience. At June 30, 2012, the SEGIP had an unfunded net obligation for future benefits of \$168,441,000 to be funded on a pay-as-you-go basis. PERA's allocated portion of this liability is \$51,000, which is reported on the Statement of Plan Net Assets. The difference between this year's liability and last year's liability was expensed as an on-behalf payment of fringe benefits.

4. Subsequent Events

As stated in Footnote B.8, revenue bonds totaling \$29 million were issued by the State of Minnesota in June 2000 to finance the construction of an administrative office facility to house the three statewide retirement systems. In August, 2012, the remaining bonds were refunded with the proceeds of a new,

lower-interest rate bond issue. The new bonds, issued by the State, are secured by the value of the total assets of the largest defined benefit plans in the statewide retirement systems. Through the issuance of the refunding bonds, which received a AAA rating, the bond term has been reduced by five years and the present value of the savings to the retirement systems is \$9,582,538. The average coupon of the refunded bonds was 5.903% while the average coupon of the new bonds is 2.743%.

Each of the three statewide retirement systems share ownership of the facility based on the amount of space used by each system. MSRS will be taking over more space in the building in fiscal year 2013, so PERA's ownership share will decrease from 37.6 percent to 36.5 percent effective July 1, 2012.

Figure 10 shows the debt service amounts for which PERA is directly responsible based on the new bonds and the new ownership percentage.

All employees of the Public Employees Retirement Association are covered by the GERF Coordinated Plan and eligible for benefits under the provisions of the plan.

An Equal Opportunity
Employer

Investment Authority

The assets of the Public Employees Retirement Association (PERA) are invested along with the assets of the Teachers Retirement Association and the Minnesota State Retirement System under the direction and authority of the State Board of Investment (SBI) in accordance with Minnesota Statutes, Chapters 11A and 356A. The SBI includes Minnesota's Governor, State Auditor, Secretary of State, and Attorney General. The Legislature has established a 17-member Investment Advisory Council (IAC) to advise the SBI and its staff on investment-related matters. PERA's Executive Director is a member of the IAC.

Investment Policy

Investment policy states that the SBI will operate within standard investment practices of the prudent person. The SBI is to "exercise that degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived therefrom." (See M.S., Section 11A.09.) The SBI is authorized to own government obligations, corporate obligations, various short-term obligations, corporate stocks, venture capital interests, resource investments, and real estate interests subject to specific constraints. (See M.S., Section 11A.24.) In particular, pension fund assets are to be invested for the exclusive benefit of the members of the fund.

Investment Objectives & Performance

PERA's pension contributions from members and employers are invested in the Combined Funds. The Combined Funds include the assets of both active and retired public employees who participate in the defined benefit plans administered by PERA, the Minnesota State Retirement System, and the Teachers Retirement Association. PERA does not own any underlying assets, but instead owns a participation in the pooled Combined Funds. Because these assets normally accumulate for thirty to forty years, SBI's objective is to take advantage of the long investment time horizon offered by equities and alternative assets in order to meet its actuarial return target and ensure that sufficient funds are available to finance promised benefits at the time of retirement. The 2012 legislature lowered the actuarial return assumption from 8.5 percent to 8.0 percent annually for the period July 1, 2012 through June 30, 2017.

The long term objectives of the Combined Funds are:

- (1) Provide returns that are 3-5 percentage points greater than inflation over the latest 20-year period; and
- (2) Outperform a composite market index weighted in a manner that reflects the actual asset mix of the Combined Funds over the latest 10-year period.

Based on values on June 30, 2012, the Combined Funds returned 5.7 percentage points above the CPI over the last 20 years and returned 0.1 percentage point above the composite index over the past 10 years. Investment returns ranked in the 35th percentile over the past 10 years, compared to similar funds in the Trust Universe Comparison Service.

Investment Presentation

Investment returns were prepared using a time-weighted rate of return methodology based upon fair market values, net of investment expenses.

Respectfully submitted,

Howard Bicker
Executive Director
State Board of Investment

October 30, 2012

Percentage Ranking: 1 Year — 39th 3 Year — 17th 5 Year — 35th 10 year — 34th

Asset Allocation

ASSET ALLOCATION (AT JUNE 30, 2012)

Asset allocation has a dominant effect on returns. SBI focused considerable attention on the selection of the appropriate long-term asset allocation policy for the Basic and MPRIF funds, and will do the same for the new Combined Funds.

Investment Type	Combined Funds	
	Actual Asset Mix	Long-term Policy Target
Domestic Stocks	45.2%	45.0%
International Stocks	14.9	15.0
Bonds	22.3	18.0
Alternative Assets*	15.7	20.0
Cash	<u>1.9</u>	<u>2.0</u>
Total	<u>100%</u>	<u>100%</u>

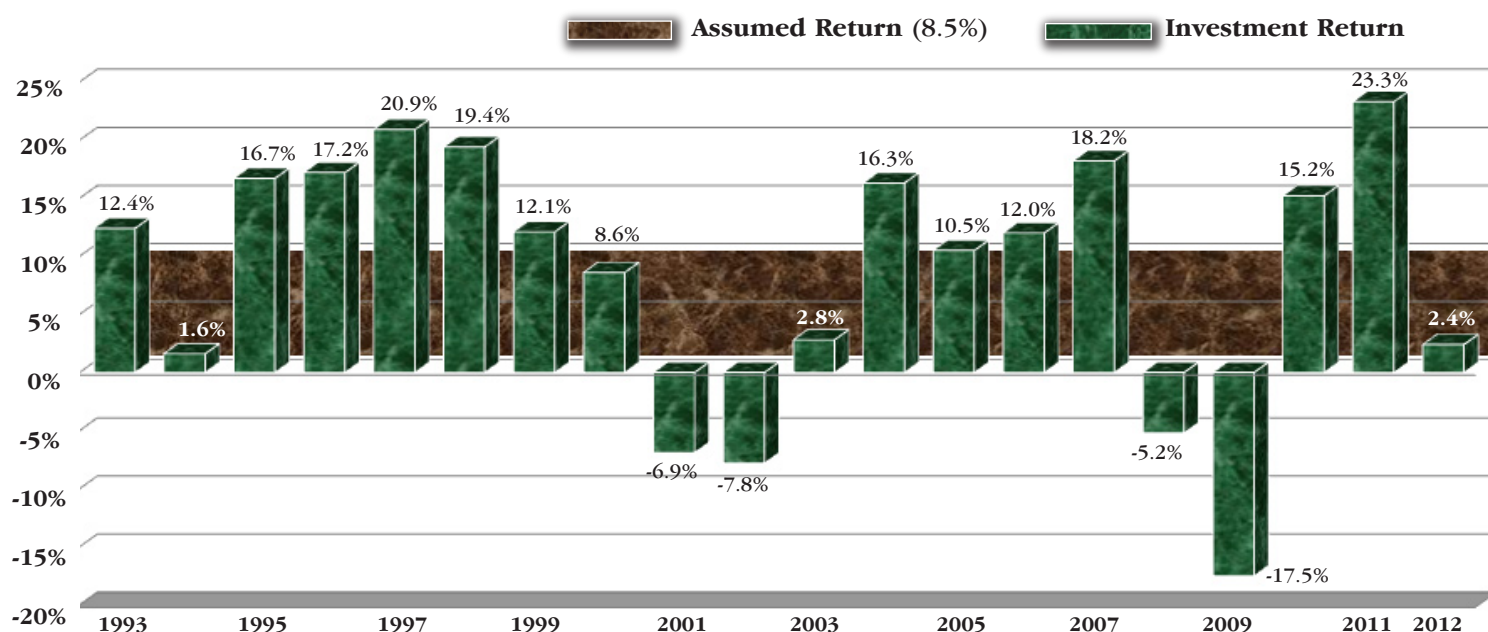

* Alternative assets include real estate, private equity (venture capital), resource (oil, gas, etc.), and yield (debt) oriented funds.

LONG-TERM TARGET ALLOCATION

The Combined Funds, as the name implies, is a combination of its predecessors, PERA's Basic Fund and the Minnesota Post Retirement Investment Fund (MPRIF). The two funds were merged in 2009.

SBI INVESTMENT RETURN VS. 8.5% ASSUMED RATE OF RETURN

The State Board of Investment (SBI) has exceeded its assumed rate of return 13 of the past 20 years, with annualized investment earnings of 8.2 percent.

Fair Value of Investments

Last 10 Years

GENERAL EMPLOYEES RETIREMENT FUND

Despite investment losses in 2008 and 2009, the fair value of investments is close to its all-time high for the General Fund.

POLICE AND FIRE FUND

Fair value of Police and Fire Fund investments increased 46 percent in three years, erasing most of the losses from 2008-09.

PUBLIC EMPLOYEES CORRECTIONAL FUND

Created in 1999, the Public Employees Correctional Fund now has investments valued at \$305 million.

December 6, 2012

Board of Trustees
Public Employees Retirement
Association of Minnesota
60 Empire Drive, Suite 200
St. Paul, MN 55103-2088

Members of the Board:

We have prepared and presented to you our annual actuarial valuation of the General Employees Retirement Fund (GERF), the Public Employees Police and Fire Fund (PEPFF), the Public Employees Correctional Fund (PECF), and the Minneapolis Employees Retirement Fund (MERF) as of June 30, 2012.

In this Comprehensive Annual Financial Report (CAFR), all supporting schedules in the Actuarial Section and the Schedule of Funding Progress and the Schedule of Employer Contributions in the Financial Section have been prepared by PERA based on the information included in reports on the annual actuarial valuation prepared by Gabriel Roeder Smith & Company (GRS). The annual actuarial valuation reports are available on the PERA website.

Valuation Results

The results of the valuations are summarized in the following table. For all plans except MERF, because the valuation smooths asset returns over five years, the actuarial value of assets is slightly higher than the fair value of assets, and the funding ratios on that basis are slightly higher and the deficiencies are lower than the market value of assets results. The valuation for MERF is based on the market value of assets.

Plan	Accrued Liability Funding Ratio		Contribution Sufficiency/ Deficiency (% of Pay)		Statutory Amortization Date
	Actuarial Value of Assets	Market Value of Assets	Actuarial Value of Assets	Market Value of Assets	
GERF	73.45%	73.00%	-0.96%	-1.08%	2031
PEPFF	78.31%	77.97%	-7.94%	-8.14%	2039
PECF	89.29%	88.99%	0.13%	0.08%	2031
MERF	69.10%	69.10%	288.20%	288.20%	2031

A contribution deficiency means that over the long run, without further changes or favorable actuarial experience, the contributions scheduled to be made to the fund will not meet the goal of full funding by the statutory amortization date. For the PEPFF, there is a very significant contribution deficiency. Without changes, the funded status of PEPFF will deteriorate in the future and assets will be depleted.

Changes in Actuarial Assumptions and Methods

The following changes were recognized this year for all plans:

- The investment return assumption was changed from 8.5% to a 5-year select and ultimate approach with rates of 8.0% for the period July 1, 2012 to June 30, 2017 and 8.5% thereafter.
- Decrement timing was changed from beginning of year to mid-year decrement timing.

For the GERF, the following changes in actuarial assumptions were recognized:

- The future salary growth rates were updated to be approximately 25 basis points lower on average than the previous table.
- Augmentation for privatizations occurring after 2010 was reduced.

Actuary's Certification Letter

(Continued)

For the PEPFF, the following changes were recognized:

- The Minneapolis Police and Firefighter's Relief Associations were merged into the Police & Fire Plan on December 30, 2011. The Virginia Fire and Fairmont Police Relief Associations were merged into the Police & Fire Plan on June 29, 2012. Unfunded liabilities will be paid by Minneapolis and Virginia through future annual amortization payments.
- Using the methodology outlined in MN statutes, the amortization period was extended by 1 year.

For the PEEF, the following changes were recognized:

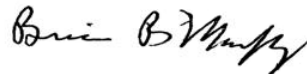

- Mortality tables were changed to RP-2000 tables.
- The salary scale rates were adjusted to more closely reflect actual experience.
- The payroll growth assumption was changed from 4.50% to 3.75%.
- The form of benefit assumption for active married members was adjusted.
- Retirement, termination and disability rates were adjusted to more closely reflect actual experience. Select termination rates of 25%, 20% and 15% were adopted for the first three years of employment.
- Using the methodology outlined in MN statutes, the amortization period was extended by 8 years.

In the aggregate, the basic financial and membership data provided to us as of June 30, 2012 by the association office appears reasonable in comparison to last year, and we have relied upon the data as submitted in performing the actuarial valuation and preparing trend data schedules. The actuarial cost method and the assumptions related to asset valuation, investment return, earnings progression and active member payroll growth are specified by state statute. All other assumptions are based on actual experience with changes recommended by the actuary, adopted by the PERA Board, and approved by the Legislative Commission on Pensions and Retirement (LCPR).

To the best of our knowledge and belief, the valuations were performed in accordance with generally accepted actuarial principles and procedures, current GASB pronouncements, the requirements of Minnesota Statutes, Section 356.215, and the requirements of the Standards for Actuarial Work established by the LCPR. In our opinion, the results of the reports reflect the actuarial position of the plans on an ongoing basis under the prescribed assumptions, methods, and procedures.

The undersigned credentialed actuaries meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained in this report. In addition, Mr. Murphy meets the requirements of "approved actuary" under Minnesota Statutes, Section 356.215, Subdivision 1, Paragraph (c). The signing actuaries are independent of the plan sponsor. We are not aware of any relationship that would impair the objectivity of our work.

Respectfully submitted,

Brian B. Murphy, FSA, EA, MAAA

Bonita J. Wurst, ASA, EA, MAAA

Summary of Actuarial Assumptions and Methods

GENERAL EMPLOYEES RETIREMENT FUND

Actuarial Cost Method	Entry Age Normal, with costs allocated as a level percentage of payroll. Actuarial gains (losses) reduce (increase) the unfunded actuarial accrued liability. (1960)*
Actuarial Assumptions	
1. Mortality	
a. Active	RP 2000 non-annuitant generational mortality table, white collar adjustment, set forward 5 years for males and set back 3 years for females. (2010)
b. Retired	RP 2000 annuitant generational mortality table, white collar adjustment, set back 2 years for females. (2010)
c. Disabled	RP 2000 disabled retiree mortality table set back 4 years for males and set forward 7 years for females. (2010)
2. Retirement Age	Age related table from age 55 to 70. (2010)
3. Disability	Graded rates.(2000)
4. Termination	Select & Ultimate Table with select rates applicable to the first 3 years of employment. (2002)
5. Allowance for Expenses	Prior year expenses expressed as a percentage of prior year payroll. (1989)
6. Earnings Progression	Service based table. (2012)
7. Active Member Payroll Growth	3.75 per year. (2011)
8. Investment Return	8.0% compounded annually FY 2013-2017, 8.5% thereafter (2012)
9 Retiree COLA	1% per year until the fund is 90% funded, then 2.5% per year. (2010)
Asset Valuation Method	Fair market value smoothed over 5 years. (2008)

PUBLIC EMPLOYEES POLICE & FIRE FUND

Actuarial Cost Method	Entry Age Normal, with costs allocated as a level percentage of payroll. Actuarial gains (losses) reduce (increase) the unfunded actuarial accrued liability. (1960)
Actuarial Assumptions	
1. Mortality	
a. Active	RP 2000 non-annuitant generational mortality table, white collar adjustment, set back 2 years. (2011)
b. Retired	RP 2000 annuitant generational mortality, white collar adjustment. (2011)
c. Disabled	RP 2000 healthy annuitant mortality table, white collar adjustment, set forward 8 years. (2011)
2. Retirement Age	Age related table from age 50 to 70. (2011)
3. Disability	Graded rates. (2003)
4. Termination	Select & Ultimate Table with select rates applicable to the first 3 years of employment. (2011)
5. Allowance for Expenses	Prior year expenses expressed as a percentage of prior year payroll. (1989)
6. Earnings Progression	Service based table. (2011)
7. Active Member Payroll Growth	3.75% per year. (2011)
8. Investment Return	8.0% compounded annually FY 2013-2017, 8.5% thereafter (2012)
9. Retiree COLA	CPI up tp 1.5% until the fund is 90% funded, then CPI up to 2.5% per year. (2010)
Asset Valuation Method	Fair market value smoothed over 5 years. (2008)

* Year in parenthesis is the date of adoption.

Summary of Actuarial Assumptions and Methods (Continued)

PUBLIC EMPLOYEES CORRECTIONAL FUND

Actuarial Cost Method	Entry Age Normal, with costs allocated as a level percentage of payroll. Actuarial gains (losses) reduce (increase) the unfunded actuarial accrued liability. (1999)
Actuarial Assumptions	
1. Mortality	
a. Active	RP 2000 nonannuitant generational mortality table, white collar adjustment (2012)
b. Retired	RP 2000 annuitant generational mortality table, white collar adjustment (2012)
c. Disabled	RP 2000 disabled mortality table. (2012)
2. Retirement Age	Age related table from age 50 to 70. (1999)
3. Disability	Graded rates. (1999)
4. Termination	Graded rates. (1999)
5. Allowance for Expenses	Prior year expenses expressed as a percentage of prior year payroll. (1999)
6. Earnings Progression	Age related table incorporating a 3% base inflation assumption. (2012)
7. Active Member Payroll Growth	3.75% per year. (2012)
8. Investment Return	8.0% compounded annually FY 2013-2017, 8.5% thereafter (2012)
9. Retiree COLA	2.5% per year. (2011)
Asset Valuation Method	Fair market value smoothed over 5 years. (2008)

MINNEAPOLIS EMPLOYEES RETIREMENT FUND

Actuarial Cost Method	Entry Age Normal, with costs allocated as a level percentage of payroll. Actuarial gains (losses) reduce (increase) the unfunded actuarial accrued liability. (1960)
Actuarial Assumptions	
1. Mortality	
a. Active	RP 2000 healthy sex distinct annuitant mortality table, white collar adjustment, projected to 2018. (2010)
b. Retired	RP 2000 healthy sex distinct annuitant mortality table, white collar adjustment, projected to 2018. (2010)
c. Disabled	RP 2000 healthy sex distinct annuitant mortality table, white collar adjustment, reduced by 20%. (2010)
2. Retirement Age	61 years, or if older than age 61, one year from the valuation date. (1984)
3. Disability	Graded rates. (1985)
4. Termination	Graded rates. (1985)
5. Allowance for Expenses	Prior year expenses increased by 4% and expressed as a percentage of prior year payroll. (1991)
6. Earnings Progression	Total reported pay for prior calendar year increased 1.98% to prior fiscal year and 4% annually for each future year. (1991)
7. Active Member Payroll Growth	—
8. Investment Return	8.0% compounded annually FY 2013-2017, 8.5% thereafter (2012)
9. Retiree COLA	1% per year until the fund is 90% funded, then 2.5% per year. (2010)
Asset Valuation Method	Market Value. (2008)

Male	100%				
Female	100				

Salary Increases

The General Employees Retirement Fund (GERF) and the Public Employees Police & Fire Fund (PEPFF) use salary increase tables based on years of public service, as follows:

<u>Yrs. of Service</u>	<u>Salary Increase</u>	
	<u>GERF</u>	<u>PEPFF</u>
1	12.03%	13.0%
2	8.90	11.0
3	7.46	9.0
4	6.58	8.0
5	5.97	6.5
6	5.52	6.1
7	5.16	5.8
8	4.87	5.6
9	4.63	5.4
10	4.42	5.3
11	4.24	5.2
12	4.08	5.1
13	3.94	5.0
14	3.82	4.9
15	3.70	4.8
16	3.60	4.8
17	3.51	4.8
18	3.50	4.8
19	3.50	4.8
20	3.50	4.8
21	3.50	4.7
22	3.50	4.6
23+	3.50	4.5

Family Composition

GERF: 75% of males and 70% of females are married.
Beneficiary for males is 3 years younger,
beneficiary for females is 2 years older.

PEPFF: 85% of males and 65% of females are married.
Beneficiary for males is 3 years younger.
Beneficiary for females is 4 years older.

PECF: 85% of members are married. Wives are 3 years younger than husbands.

MERF: 67% of members are married. Wives are 3 years younger than husbands.

RETIREMENT FUND ANNUITANTS

The number of annuitants from PERA's three primary benefit plans has increased at an annualized rate of 4.4 percent since 2007. (See page 63.)

Schedule of Changes in Unfunded Actuarial Accrued Liabilities (UAAL)

For the Fiscal Year Ended June 30, 2012 (in thousands)

	General Employees Retirement Fund	Public Employees Police and Fire Fund	Public Employees Correctional Fund	Minneapolis Employees Retirement Fund
A. UAAL at Beginning of Year (7/1/11)	\$4,443,096	\$ 1,088,944	\$ 9,889	\$327,716
B. Change Due to Interest Requirements and Current Rate of Funding				
1. Normal Cost and Expenses	354,575	158,345	22,187	549
2. Contributions	(689,449)	(190,832)	(23,901)	(54,937)
3. Interest on A, B1 and B2	<u>363,431</u>	<u>91,180</u>	<u>768</u>	<u>25,544</u>
C. Expected UAAL at End of Year (A+B)	\$4,471,653	\$ 1,147,637	\$ 8,943	\$298,872
D. Increase (Decrease) Due to Actuarial Losses (Gains) Because of Experience Deviations from Expected*				
1. Age and Service Retirements	20,068	1,075	(931)	567
2. Disability Retirements	(689)	(4,584)	(561)	(90)
3. Death-in-Service Benefits	1,236	1,842	(2)	31
4. Termination of Employment	(26,863)	(5,822)	(1,061)	25
5. Salary Increases	(284,924)	(63,598)	(6,202)	(1,028)
6. Investment Income	572,622	234,741	9,938	53,414
7. Mortality of Annuitants	5,446	12,792	88	(2,928)
8. Other	<u>19,099</u>	<u>68,661</u>	<u>1,814</u>	<u>8,511</u>
E. UAAL at End of Year Before Plan Amendments and Changes in Actuarial Assumption (C+D)	\$4,777,648	\$1,392,744	\$12,026	\$357,374
F. Change in UAAL Due to Change in Plan Provisions	0	104,699	0	0
G. Change in UAAL Due to Change in Actuarial Assumptions and Methods	240,412	106,794	24,917	20,773
H. Change in unfunded actuarial accrued liability due to changes in decrement timing and methodology	<u>(80,845)</u>	<u>1,190</u>	<u>(198)</u>	<u>(1,223)</u>
I. UAAL at End of Year 6/30/12 (E+F+G+H)	<u>\$4,937,215</u>	<u>\$1,605,427</u>	<u>\$36,745</u>	<u>\$376,924</u>

- * Explanatory Notes:
1. If members retire earlier than assumed, there is a loss; if later, a gain.
 2. If more members take a disability than assumed, there is a loss; if fewer, a gain.
 3. If fewer active members die than assumed, there is a loss; if more, a gain.
 4. If fewer members terminate employment than assumed, there is a loss; if more, a gain.
 5. If there are larger salary increases than assumed, there is a loss; if smaller, a gain.
 6. If there is a smaller investment return than assumed, there is a loss; if larger, a gain.
 7. If benefit recipients live longer than assumed, there is a loss; if less, a gain.
 8. Miscellaneous gains and losses.

December 14, 2012

GASB Statement No. 44, Economic Condition Reporting: The Statistical Section, was issued in May 2004. The statement establishes requirements related to the supplementary information presented in the Statistical Section of this report. The objective of the information found in the Statistical Section is to provide financial statement users with additional historical perspective, context and detail. We trust that when used in conjunction with information found in previous sections of this report, readers will gain a better understanding of PERA's overall financial condition.

Financial Information

The Schedule of Changes in Net Assets is presented for the last 10 years, giving the reader an opportunity to review trends in the revenues and expenses of our defined benefit plans. Benefits and refunds are then broken down by type. The Revenues and Expenses graph on page 74 shows that almost two-thirds of our revenue has come from investment income over the past 20 years, despite two deep recessions during that time period.

Plan Membership

Membership and financial information for the Statewide Volunteer Firefighter Retirement Plan is provided on page 75.

Membership data for the three largest plans over the past ten years can be found on page 76. Active membership rose until 2008, and has since fallen back to previous levels, while the number of benefit recipients has increased 45 percent and the number of terminated vested members has increased 43 percent since 2002. The graphs on page 77 show the distribution of our active membership as of 6/30/12.

Information about PERA's benefit recipients is provided on pages 78 through 86, including monthly benefit amounts, types of benefits, benefit options, and location of benefit recipients.

Employers

The rest of this section provides information about the employers who participate in PERA.

All non-accounting data is derived from PERA's internal sources.

A handwritten signature in black ink, reading 'David Hengge'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Revenues and Expenses

Average over last 20 years

REVENUES BY SOURCE (FY1993 - FY2012)

All Funds

Over the past 20 years, investment earnings have been responsible for nearly two-thirds of PERA's revenues, despite the huge losses experienced during the recent recession.

EXPENSE BY TYPE (FY1993 - FY2012)

All Funds

Since FY1992, benefits for our members has represented over 95 percent of PERA's expenses.

These figures are unaudited. Net assets represent the market value of investments in each entity's account. Accrued liabilities and normal cost are approximations based on spreadsheets approved by PERA's actuary, but are not calculated by the actuary.

2012 Fire State Aid will be paid by the State and deposited into each fire department's account on October 1, 2012.

2013 Required Contributions are due from the entity sponsoring each fire department by 12/31/2013.
