Members of the Board of Trustees  
Public Employees Retirement Association of Minnesota  
St. Paul, Minnesota  

We have audited the accompanying schedules of employer allocations of the Public Employees Retirement Association (PERA) of Minnesota’s General Employees Retirement Fund Pension Plan, Public Employees Police and Fire Fund Pension Plan, and Public Employees Correctional Fund Pension Plan as of and for the year ended June 30, 2020, and the related notes. We have also audited the total for all entities of the columns titled ending net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense (specified column totals) included in the accompanying schedules of pension amounts by employer, current reporting period only, of the PERA’s General Employees Retirement Fund Pension Plan, Public Employees Police and Fire Fund Pension Plan, and Public Employees Correctional Fund Pension Plan as of and for the year ended June 30, 2020, and the related notes. We have previously communicated to you information about our responsibilities under auditing standards generally accepted in the United States of America, as well as certain information related to the planned scope and timing of our audit. Professional standards also require that we communicate to you the following information related to our audit.

Significant audit findings  
Qualitative aspects of accounting practices  

Accounting policies  
Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by PERA are described in the related notes to the schedules.

We noted no transactions entered into by PERA during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the schedules in the proper period.

Accounting estimates  
Accounting estimates are an integral part of the financial statements prepared by management and are based on management’s knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The following is management’s description of the process utilized in forming estimates for the total pension liability.

The actuarial valuations were based on the actuarial assumptions and methods adopted by the Board. In accordance with GASB 67, the total pension liability of the retirement portion of the General Employees Retirement Fund Pension Plan, Public Employees Police and Fire Fund Pension Plan, and Public Employees Correctional Fund Pension Plan was calculated using a measurement date of June 30, 2020. We evaluated the key factors and assumptions used to develop the estimate of the total pension liability in determining that it is reasonable in relation to the financial statements taken as a whole.
Schedules disclosures
Certain disclosures are particularly sensitive because of their significance to the users. There were no particularly sensitive disclosures.

The disclosures are neutral, consistent, and clear.

Difficulties encountered in performing the audit
We encountered no significant difficulties in dealing with management in performing and completing our audit.

Uncorrected misstatements
Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management did not identify and we did not notify them of any uncorrected misstatements to the schedules.

Corrected misstatements
Management did not identify and we did not notify them of any misstatements detected as a result of audit procedures.

Disagreements with management
For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the schedules or the auditors’ report. No such disagreements arose during our audit.

Management representations
We have requested certain representations from management that are included in the attached management representation letter dated January 22, 2021.

Management consultations with other independent accountants
In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to PERA’s schedules or a determination of the type of auditors’ opinion that may be expressed on the schedules, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Significant issues discussed with management prior to engagement
We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to engagement as PERA’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our engagement.
Our auditors’ opinion, the audited schedules, and the related notes to schedules should only be used in their entirety. Inclusion of the audited schedules in a document you prepare, such as an annual report, should be done only with our prior approval and review of the document.
